Rep. Billings Statement on Supreme Court Ruling on Legislative Maps

MADISON – Today, the Wisconsin State Supreme Court Release their opinion on the current Wisconsin Legislative district maps.

“The ruling by the Wisconsin Supreme Court today has put Wisconsin on a path to a brighter future. Wisconsin’s gerrymandered maps have diminished the voice of the people for too long.”

“I am grateful to everyone who worked to successfully argue that Wisconsin’s legislative maps do not truly reflect or represent people of our state and must be improved so our Assembly can provide fair representation to our constituents. This is an incredible victory for democracy and the rule of law.”

“This ruling is a crucial step forward to finally end unconstitutional gerrymandering in Wisconsin. I am hopeful that in the weeks and months to come the work will continue to move Wisconsin forward and ensure that every Wisconsinite will have the opportunity to vote in fairly drawn districts in 2024.
