ADMINISTRATION -- GENERAL AGENCY PROVISIONS

Repeal the Sunset for the Diesel Truck Idling Reduction Grant Program
[LFB Paper #100]

Motion:

Move to adopt the modification relating to the Department of Administration standard budget adjustments and, additionally, repeal provisions that would sunset the diesel truck idling reduction grant program.

Note:

The program provides grants to freight motor carriers headquartered in Wisconsin to purchase and install idling-reduction units for long-haul truck tractors. Under current law, the program is scheduled to sunset on June 30, 2020, for grant funds and December 31, 2021, for program administration. Base funding is \$1,000,000 SEG for grants, and \$79,400 SEG and 1.0 SEG position for program administration. Funding is provided from the petroleum inspection fund. The calculation of standard budget adjustments utilized in the agency budget request and the administration's recommendation inadvertently did not remove funding for the diesel truck idling reduction grant program in 2020-21. The Governor recommended removing the sunset for the program. This provision as deleted by previous Committee action.
