Omnibus Motion  
[LFB Papers #415 thru #419]

Motion:

Move to adopt the following provisions:

1. *Statewide Interoperable Radio Network Replacement (Paper #415)*. Adopt Alternative 1 to provide \$6,500,000 GPR in 2022-23 on a one-time basis to build a statewide interoperable radio network to replace the existing Wisconsin Interoperable System for Communications. Require DMA to oversee the development and operation of any current or future statewide public safety interoperable communication system and administer the system. Allow DMA to enter into agreements for the maintenance and support of, upgrades to, and enhancements for the system.

2. *Next Generation 911 (Paper #416)*. Adopt Alternative B1b to provide \$7,500,000 SEG in 2022-23 to help public safety answering points transition to Next Generation 911 (NG911) by training staff, purchasing equipment, and upgrading software. Further, adopt Alternative C1a to create a grant program and provide \$3,000,000 SEG in 2022-23 to help counties compile geographic information systems data. Sunset the grant program on June 30, 2025. Specify that DMA may only award one grant per county in each fiscal year. Require DMA to coordinate with the land information program under the Department of Administration to administer the program and to develop policies for eligibility criteria based on recommendations from the 911 Subcommittee. Funds could not be used for county overhead or to provide emergency services or emergency services equipment. In addition, provide \$3,447,500 SEG in 2021-22 and \$11,231,400 SEG in 2022-23, funded by the police and fire protection fund, to facilitate the transition to Next Generation 911 (NG911). A corresponding decrease in SEG funding and increase in GPR funding under Shared Revenue and Tax Relief would occur.

3. *Comprehensive Health and Wellness Program (Paper #417)*. Adopt Alternative 1 to provide \$1,650,100 GPR in 2021-22, \$1,690,200 GPR in 2022-23, and 5.0 GPR positions annually to expand the comprehensive wellness program. Funds would be utilized for program administration, curriculum development and implementation, community partnerships, and a mobile health and wellness vehicle.

4. *Urban Search and Rescue Task Force (Paper #418)*. Adopt Alternative 1 to create a GPR appropriation and provide \$500,000 GPR annually for task force training, administration, and equipment. Create a continuing PR appropriation to support: (a) task force deployments; and (b) reimbursements to local agencies for increases in duty disability premium contributions for employees who receive such benefits because of an injury incurred as a task force member. Modify the regional structural collapse teams' designation under federal law to an urban search and rescue

task (USR) force. Require local agencies to submit reimbursement requests within 45 days of a deployment and DMA to reimburse local agencies within 60 days of receiving a complete reimbursement request.

5. *State Disaster Assistance Program (Paper #419)*. Adopt Alternative 1 to provide \$2,500,000 SEG annually to the state's disaster assistance program and modify eligible expenses to include costs incurred for approved hazard mitigation measures after a disaster. Funding would be provided from the petroleum inspection fund.

6. *Truax Field Microgrid System (LFB Summary Page 410, #5)*. Require DMA to conduct a study in 2022-23 to determine the feasibility of constructing an electric microgrid system at Truax Field in Madison, to include the Joint Force Headquarters, the State Emergency Operations Center, and the Joint Operations Center. Authorize one-time expenditures of not more than \$64,000 GPR in 2022-23 to support the study. If the Adjutant General then determines construction is feasible, authorize one-time expenditures of not more than \$296,000 GPR in 2022-23 for schematic designs:

7. *Modify Emergency Assistance Appropriations (LFB Summary Page 412, #10)*. Modify two PR appropriations under DMA from annual to continuing. The intergovernmental services appropriation funds assistance to local units of government, while the interstate emergency assistance appropriation funds assistance to other states and territories. As continuing program revenue appropriations, DMA would be authorized to spend any amount necessary, provided that revenues are sufficient.

8. *General Fund Lapse (LFB Summary Page 412, #11)*. Require DMA to lapse \$130,094 GPR to the general fund in 2021-22 from the appropriation balances in the following continuing GPR appropriations: (a) regional emergency response grants (\$8,205); (b) mobile field force grants (\$116,978); and (c) emergency response supplement (\$4,911).

9. *Fuel and Utilities Reestimate (LFB Summary Page 412, #13)*. Reduce expenditure authority by -\$150,700 GPR in 2021-22 and -\$164,100 GPR in 2022- 23 associ utility cost estimates at Army and Air National Guard facilities.
