Additionally, modify statutory language to allow independent charter schools, the state's Educational Services Program for the Deaf and Hard of Hearing and Center for the Blind and Visually Impaired, and residential care centers for children and youth to be eligible for reimbursement. Specify

that schools that ceased operations during the prior school year are not eligible for reimbursement for any breakfasts served during that year.

10. *Early Literacy and Reading Improvement (Paper #638)*. Provide \$10,000,000 GPR annually to create two new appropriations, including \$9,195,000 GPR annually to contract with and train literacy coaches to implement a comprehensive program of trainings for educators to improve early literacy and reading outcomes for Wisconsin students, and \$805,000 GPR annually to provide payments to participating school districts and independent charter schools.

Require DPI to establish a program to improve literacy outcomes that includes the following: (a) coaches to support the implementation of evidence-based literacy instructional practices in grades K-12 by collaborating with local educational agencies to establish goals for literacy outcomes for specific grade levels and literacy areas and provide ongoing support to local educational agencies to meet those goals; (b) coaches to focus on early literacy instructional transitions by providing in-person trainings for teachers who teach 4K, kindergarten, or first grade, including in-person trainings to evaluate existing early literacy curricula and goals and to assist local educational agencies to create local, standards-aligned, and developmentally appropriate curricula and instruction for 4K to first grade pupils; and (c) trainings for the coaches on how to identify evidence-based literacy instructional practices and facilitate regional trainings focused on early literacy instructional practices. Require DPI to contract with individuals who demonstrate knowledge of and expertise in evidence-based literacy instructional practices and instructional experience in grades 4K to 12 to serve as literacy coaches under (a), and individuals who demonstrate knowledge and expertise in early literacy instructional practices and instructional experience in grades 4K through one to serve as literacy coaches under (b).

Define urban school districts as those with enrollments in the previous school year of at least 16,000 pupils (Milwaukee, Madison, Green Bay, Kenosha, and Racine), and require each urban school district to participate in the program. Require DPI to contract with one of each type of literacy coach for each urban school district, and between one and four of each type of coach for each cooperative educational service agency (CESA), depending on the number of pupils enrolled in non-urban districts located in the CESA in the previous school year, as follows: (1) for CESAs with fewer than 40,000 pupils, one coach under (a) and one under (b); (2) for CESAs with 40,001 to 80,000 pupils, two literacy coaches under (a) and two under (b); for CESAs with 80,001 to 120,000 pupils, three literacy coaches under (a) and three under (b); and for CESAs with more than 120,000 pupils, four coaches under (a) and four under (b). Specify that other than urban districts, DPI could not require any district to participate in the program.

Require DPI to pay \$7,000 annually to each school district and independent charter school that elects to work with a coach to implement evidence-based literacy instructional practices under (a) and an additional \$6,000 annually to each school district and independent charter school that participates in an early literacy training led by a coach under (b).

11. *High Cost Transportation Aid (Paper #639)*. Provide \$7,503,800 GPR annually above base level funding of \$19,856,200 for high cost transportation aid. It is estimated that this amount would fully fund payments to eligible districts in each year. Additionally, modify statutory language to eliminate the \$200,000 cap for payments for districts that qualified for aid in the previous year, but did not qualify in the current year.

12. *Pupil Transportation Aid (LFB Summary, page 496, #21)*. Modify statutory language to increase the reimbursement rate for pupils transported over 12 miles to and from school in the regular school year from \$375 to \$400 beginning in the 2023-24 school year.

Provide \$6,500,000 GPR beginning in 2024-25 in a new, annual appropriation for driver education aid to reimburse eligible programs for the cost of providing driver education to low income pupils. Define a driver education program as an instructional program in driver education approved by DPI and operated by a driver school or a qualified driver education provider, which would include school boards, operators of an independent charter school, and cooperative educational service agencies. Specify that eligible pupils would be pupils who qualified for free or reduced-price lunch in the federal school lunch program in the previous school year. Provide that in order to receive grants, qualified driver education providers would have to: (a) demonstrate to DPI that the provider waived the fees it would otherwise charge for eligible pupils; and (b) by October 1, 2024, and annually thereafter, report the number of eligible pupils who enrolled in and successfully completed its driver education program in the previous school year and the amount charged to a pupil who was not an eligible pupil to enroll in and complete the program in the previous year. Require DPI to calculate the amount paid to each qualified driver education provider by multiplying the number of eligible pupils reported as having successfully completed a program in the previous school year by the amount that the provider reported that it charged a pupil who was not an eligible pupil in the previous year. Provide that DPI could promulgate rules to implement and administer this program.

14. *Sparsity Aid (LFB Summary, page 496, #23)*. Provide \$630,200 GPR annually over base level funding of \$27,983,800 GPR for sparsity aid. Additionally, modify the provision that exists under current law under which any district that qualified for sparsity aid in one year but did not qualify the following year due to an increase in its enrollment is eligible to receive 50% of its prior year award. Instead, allow a district that loses its eligibility as a result of an increase in its enrollment or its pupil population density to receive up to 50% of its prior year award.
