Rep. Stuck Votes Against FoxConn Corporate Welfare Bill (again) *Bill Fails to Protect Wisconsin Taxpayers and Ensure Benefit to State*

MADISON – Rep. Stuck issued the following statement following the Wisconsin State Assembly’s second approval of the \$3 billion Foxconn Corporate Welfare package.

“It could not be more clear that the FoxConn Corporate Welfare Bill is not a good deal for the State of Wisconsin. This bill has been amended by the Assembly Jobs Committee, the full State Assembly, the Joint Committee on Finance, and the full State Senate, which tells me that this bill and this deal is not ready for prime time and not good for the state.”

“While I am disappointed that this bill has passed, I am not surprised, but I am proud to stand in with my constituents in opposition to the largest state giveaway to a foreign company in US history, a deal which fails to provide guarantees for Wisconsin workers, Wisconsin companies, and Wisconsin taxpayers.”
