

JAMES W. EDMING

STATE REPRESENTATIVE • 87TH ASSEMBLY DISTRICT

February 1, 2015

Representative Swearingen,

I ask for your support for the construction of a new ranger station and storage building in Medford in Taylor County.

Medford's current ranger station has unsatisfactory office facilities, insufficient support space, and declining conditions that are leading to mechanical and structural problems. A new station will address the issues within the existing structure. Additionally, a new storage area would produce better operations and a safer environment, which would allow for faster response times by fire-equipment operators.

The current ranger station is outdated and no longer functions properly. The structural and safety issues that affect the existing station can be resolved through the construction of a new facility. I urge you to support this new construction as it will increase both efficiency and safety within the Medford community.

Sincerely,

A handwritten signature in black ink that reads "James W. Edming". The signature is written in a cursive style with a large initial "J".
