

Adapting to Innovation: *Historical Perspectives and Emerging Technologies*

October 14, 2009

**Downtown Campus - Madison Area Technical College
Room D-240**

9:45 - 10:00 a.m.

REGISTRATION

10:00 - 10:15 a.m.

WELCOMING REMARKS

- Chief Justice Shirley S. Abrahamson
Wisconsin Supreme Court
- Representative Marlin D. Schneider, Co-Chair
Joint Legislative Council
- Mr. Michael H. McCabe, Director
Midwestern Office of Council of State Governments

10:15 - 11:15 a.m.

**“Lessons Learned? Society’s Reactions to Historical
Innovations”**

**Bruce E. Seely, PhD
Dean, College of Sciences and Arts
Michigan Technological University**

*Speaker Introduction and Moderator ~ Senator Mark Miller, Member
Joint Legislative Council*

Dr. Seely will provide a historical perspective on technological innovations and how law and society have responded to them. He will offer insight into how legal and other societal institutions react to these changes and the unintended consequences of those responses. A moderated question and answer session will follow the presentation.

(OVER)

11:15 - 12:30 p.m. “Getting Inside Your Head: The Science of Brain Imaging”

Richard J. Davidson, PhD
William James and Vilas Professor of Psychology and Psychiatry
University of Wisconsin-Madison

*Speaker Introduction and Moderator ~ Chief Justice Shirley S. Abrahamson
Wisconsin Supreme Court*

Dr. Davidson will describe the technology and science behind brain imaging and its emergence as a tool to determine human thoughts and emotions, disorders, and behavioral tendencies. He will also identify some of the potential applications of this technology and discuss possible legal implications. Dr. Davidson will answer questions in a moderated question and answer session following his presentation.
