Senator Agard Congratulates Representative Hebl on Years of Public Service

Madison, WI – Today, Representative Gary Hebl (D-Sun Prairie) announced that he would not seek reelection in 2022 for his State Assembly seat. State Senator Melissa Agard (D-Madison) released the following statement regarding Hebl’s announcement:

“Representative Hebl has been an incredible colleague and mentor in the state legislature. He has always been wonderful to work with, both in my time in the Assembly and Senate. Gary has been immensely dedicated to working for the folks of the 46th Assembly District for almost twenty years.

“I have fortunate to work with Gary so closely, and the Democratic caucus will not be the same without him. He truly cares about his constituency and has been an enthusiastic public servant. Wisconsin is stronger because of his commitment to preserving our environment and natural resources, investing in public education, and advocating for good government.

“I wish Gary nothing but the best in his retirement as he spends time with his children and grandchildren, and I congratulate him on his years of public service.”
