Wisconsin!*

Cannabis legalization offers boundless positive impacts for Wisconsin that we must take advantage of rather than continuing as an island of prohibition.

Senator Agard hears you and is working to legalize cannabis for adult, responsible usage in Wisconsin. Simply put, the most dangerous thing about cannabis in Wisconsin is that it remains illegal.

In Wisconsin, cannabis is entirely illegal, and the laws prohibiting it are strict in many parts of the state.

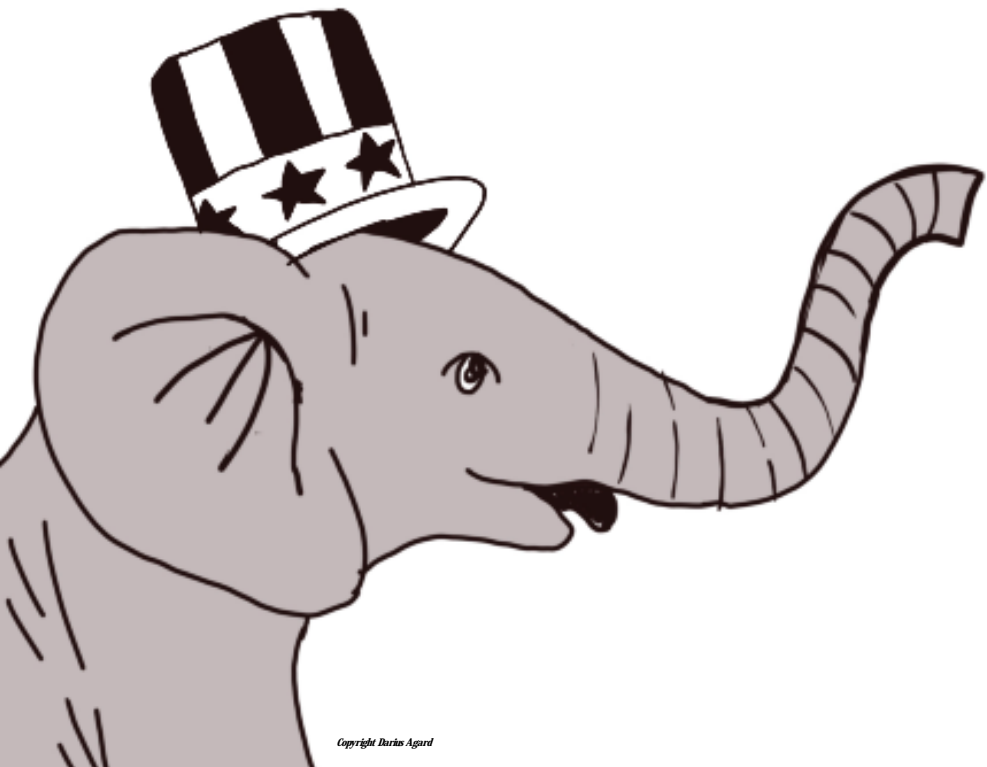

***AS OF AUGUST 2023**

Back in 2014, as a freshman Representative serving in the Assembly, Melissa introduced the first bill for legal recreational cannabis use in Wisconsin. Senator Agard has introduced similar legislation for the past 5 legislative sessions.

Democratic Governor Tony Evers has also pushed for full legalization, but the predominantly GOP state legislature **has ignored the people's will.**

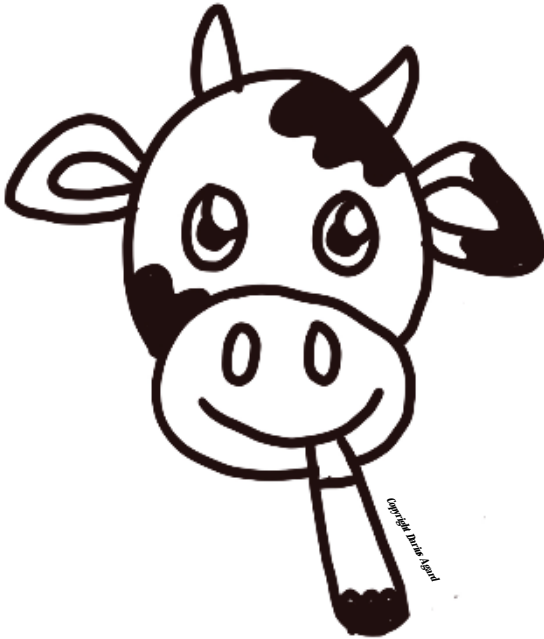

Don't be fooled by half-measures or political maneuvers. With policymaking, the devil is in the details. We need full legalization in Wisconsin.
