**Senator Agard Launches B.E.S.T. Website**

*Website aims to connect Wisconsinites to economic resources at the state level, educate on economic policies*

MADISON - Today, Senator Melissa Agard (D-Madison) launched the Building Economic Security Together (B.E.S.T.) website, a resource for Wisconsinites to learn about the B.E.S.T. agenda proposed last week and to access economic security resources currently available to all Wisconsinites.

Senator Agard released the following statement regarding the launch:

“Wisconsinites deserve to access economic resources that will help them reach their dreams. This website will help show folks what could be possible in Wisconsin by including information about our B.E.S.T. agenda as well as connect them to current state-run resources.

“The website includes information about the B.E.S.T. Agenda, including: the bill drafts, messaging, and other resources for those interested in learning more about these policies. Additionally, it includes resources that are currently available to Wisconsinites, as well as other websites to help create economic security.

“I am proud to champion this agenda and create a small hub for Wisconsinites - I look forward to folks utilizing this site and to updating it with more resources in the future.”
