## **Statement on Governor Walker Delaying I-94 N-S Expansion - Again**

“On a snowy night 5 1/2 years ago, I was told that work on I-94 in Racine And Kenosha Counties would be prematurely halted so that work could start on the Zoo Interchange. I was promised at that time and repeatedly since that the I-94 N-S expansion would be completed in the 17-19 budget.

“Road safety and economic development in Racine and Kenosha County is just as important as in Milwaukee, Rock and Outagamie counties. Especially when the designated funding for this project was repurposed for the project in Milwaukee County. I intend to hold people to their word. Taxpayers deserve nothing less.”
