STATEMENT ON VETO OF SENATE BILL 597

“Governor Evers veto of SB 597 is particularly cruel and disingenuous. As the former DPI Superintendent, and the self-proclaimed “education governor”, he knows full well that this bill would have no impact on property taxes.

This bill impacts the academically gifted kids that are already in choice schools. These kids aren’t Republican or Democrat – they are students looking for equal opportunity. And by vetoing this bill, he is holding them back and capping their academic performance. “
