July 11<sup>th</sup>, 2018

**Senator Testin goes “On the Job” with Wautoma Area Business**

*Testin works with Insight FS as Part of Monthly Series*

**Wautoma, WI** – Once a month, State Senator Patrick Testin (Stevens Point) goes “On the Job” with a business in Central Wisconsin, and July’s host was Insight FS at their Wautoma location. Testin got a real hands on experience with the agricultural cooperative, mixing fertilizer, learning about agronomy, and changing valves on propane tanks and hoses.

“I started this series to highlight the diversity of jobs available in the 24<sup>th</sup> District,” said Sen. Testin. “Across the state, Insight FS employs hundreds of people in a wide range of jobs – everything from propane sales and service to agronomy, feed sales, and agri-finance.”

Insight FS employs thirteen full time, one part time, and four seasonal employees in Wautoma.

In addition to the Wautoma location, Insight FS has staffed offices in other parts of the 24<sup>th</sup> Senate District, including Sparta, Wisconsin Rapids, and Amherst Junction. Currently, the Amherst Junction location is seeking an administrative assistant, with more seasonal positions becoming available in August and September.
