

# VACCINE INFO FROM HEALTH CARE PROVIDERS

## UnityPoint (Meriter) Health

Vaccinations for our primary care patients age 65 and older will begin in late January 2021. We will reach out directly to eligible patients via phone, direct mail and/or through MyUnityPoint with scheduling instructions. Click [HERE](#) for more info.

## UW Health

If your primary care physician is with UW Health, you can complete [this COVID-19 vaccine interest form](#). In the coming weeks, eligible UW Health patients age 65 and older should receive an invitation to receive a COVID-19 vaccine. While this interest form does not guarantee an appointment or replace the scheduling process, we may contact you for same day appointments if they become available. Click [HERE](#) for more info.

## SSM

It is important to remember that there are hundreds of thousands of people eligible in this current vaccination phase and our ability to vaccinate depends on vaccine supplies. Please be patient as we proactively work to offer vaccinations as efficiently as possible. In the meantime, we ask that you please refrain from calling your health care provider or clinic for vaccine information. Our phone lines need to remain open for patients who are experiencing active symptoms or have acute care needs.

The easiest way to schedule your vaccination appointment will be through MyChart. If you do not have a MyChart account, we encourage you to sign up online. For SSM Health patients unable to use MyChart, we will begin to schedule patient vaccination appointments by telephone on January 22: SSM Health Dean Medical Group patients: 608-250-1222

## Monroe Clinic (SSM)

Due to the large number of eligible patients, scheduling will be done in phases. Monroe Clinic will begin vaccinating patients ages 75 and older as they are at a higher risk for serious complications and hospitalization due to COVID-19. If you are age 75+ and older, please call out Monroe Clinic COVID-19 Vaccine Hotline at 608-324-1815. The hotline is available from Monday through Friday from 8am to 5pm. Click [HERE](#) for more info.

# VACCINE INFO FROM HEALTH CARE PROVIDERS

## Sauk Prairie Health Care

Wisconsin COVID-19 vaccination prioritization guidelines identify the following groups as currently eligible to receive the vaccine: healthcare workers, skilled nursing facility residents, fire personnel, police personnel, individuals age 65 and older.

If you are part of one of the eligible groups listed above, you can [add your name to Sauk Prairie Healthcare's waiting list](#). COVID-19 vaccine supply is unpredictable and limited. Please be patient. As we receive vaccine supply, we are contacting those on the waiting list. This waitlist is only compatible with Chrome, Safari, Firefox, and Edge browsers. Do not use Internet Explorer as that browser is no longer compatible. Click [HERE](#) for more info.

## Mercy Health

Mercyhealth will be reaching out to our established patients as they become eligible for the vaccine, based on the information in their medical record. We're coordinating appointments from a central location and will contact you via MyChart to notify you of your eligibility. We'll expand notification through other outreach methods (mail, phone and email) as our vaccine supply allows. Wait lists are not available at this time. Please continue to monitor your MyChart account and our website for further updates. Click [HERE](#) for more info.

## Advocate Aurora

"If you're a current Advocate Aurora patient, make sure you've downloaded the LiveWell app from the App Store or Google Play. All vaccination appointments will be scheduled via the app. We've updated the app with easy-to-follow instructions to help you schedule your appointment after we let you know you're eligible and send you a scheduling code. We encourage you to visit the app regularly as we'll offer more appointments as we receive more vaccine supply.

Along with other health providers and business partners, we'll expand vaccinations to the broader community in line with these phased guidelines as supplies become available. And we'll keep you updated here on our website as new information becomes available. Click [HERE](#) for more info.
