## **Legislative Democrats Roll Out Fall Priorities**

*Forward Together plan focuses on the most pressing issues facing Wisconsin*

MADISON – Today, Legislative Democrats rolled out their fall priorities plan, *Forward Together*. As the legislature moves into the fall floor period, there are many issue areas Democrats will be focused on to improve the lives of everyday Wisconsinites. The plans were announced at press conferences across the state. Representative Dianne Hesselbein (D-Middleton) released the following statement in support of this plan:

**“At the beginning of this legislative session, the people of Wisconsin were clear about their priorities. Access to affordable health care, investment in education, clean and safe drinking water, economic fairness and many other issues are top of mind of people in my district and across the state,”** said Rep. Hesselbein. **“Democratic priorities reflect the will of the people of Wisconsin who voted for bold solutions and expect their elected representatives to get the job done. That is why we are pushing forward with the priorities Wisconsinites have, that the gerrymandered majority in the legislature has failed to act on.”**

This plan focuses on the issues facing Wisconsin and the common-sense steps the legislature can take to address them. The comprehensive list of priorities includes affordable health care, quality public schools, clean water, economic security, criminal justice reform, safe communities, and strengthening our democracy.

**“Representative Vos and Senator Fitzgerald refused to get the job done this legislative session and the people of our state cannot wait any longer. The inaction of the gerrymandered majority has families worried they might not see their problems addressed in this legislative session. My colleagues and I are here with Governor Evers ready to work for Wisconsin. The Republican leadership had their chance to fulfill the promises made. Now, we invite our colleagues on the other side of the aisle to join us in working to deliver on the issues our constituents care about most,”** Rep. Hesselbein concluded.
