Legislative Democrats Unveil First Bill Package of 2025 Legislative Session to Lower Costs and Improve Lives

MADISON, Wis - Today, Legislative Democrats introduced the *Lowering Costs, Improving Lives* legislative package. The proposal works to help Wisconsinites with rising costs by reducing the tax burden for fixed and low-income renters and homeowners, cutting the costs of grocery bills for families, and decreasing prescription drug prices. Senate Democratic Leader Dianne Hesselbein (D-Middleton) and Assembly Democratic Leader Greta Neubauer (D-Racine) released the following statements:

Senate Democratic Leader Dianne Hesselbein: “Democrats know that we can enact commonsense policies that lower costs for working Wisconsinites and improve people’s lives. We can and should do both. My Democratic colleagues and I remain committed to working hard for Wisconsin families and tackling the issues that matter most to them.”

Assembly Democratic Leader Greta Neubauer: “Legislative Democrats’ *Lowering Costs, Improving Lives* package works to address Wisconsinites’ most pressing issues. By lowering prescription drugs, reducing the costs of groceries, and providing tax relief to renters and homeowners, we can provide working people with a bit more breathing room in their budget. Our work putting people first is just getting started.”
