Sen. Tomczyk Statement on Joint Committee on Finance Session

Madison, WI – Wisconsin State Senator Cory Tomczyk (R-Mosinee) issued the following statement regarding the May 2nd Joint Committee on Finance session.

“I am delighted by the outcome of the Finance Committee vote yesterday. Once again, Republicans have demonstrated fiscal responsibility and will build from the bipartisan budget signed into law two years ago.

The governor tried to add over 500 pork barrel proposals that are quite frankly, purely political. We do not need bigger government to spend your hard earned dollars. We need sensible spending and lower taxes, plain and simple.”
