## Sen. Tomczyk Slams DOJ Investigation in Wausau

**Madison...** Today, Senator Cory Tomczyk (R-Mosinee) commented on the Department of Justice investigating Wausau Mayor Doug Diny and his actions regarding the city's ballot drop box:

*"Of all the issues that AG Josh Kaul and his investigators at the Department of Criminal Investigation (DOC) could spend their time and taxpayer dollars on, they choose to investigate Mayor Diny for trying to protect the ballots of the residents of the City of Wausau. Give me a break! Mayor Diny removed a ballot drop box that was unsecured and moved it to a secure location. The City Clerk put the box back where it was and had it secured it to the ground. Both sides had made their point and were willing to move on.*

*"Because of incompetence by Democrats in the Evers and Biden Administrations, our state has been overrun by criminal illegal immigrants, fentanyl from across the Southern border is killing our kids, and hardworking families can't afford to put food on the table – but yesterday Josh Kaul opened a criminal investigation into a local Mayor moving a ballot drop box. Josh Kaul's priorities couldn't be more out of line with the residents of Central Wisconsin – he is an embarrassment to this state.*

*"This isn't leadership. This isn't admirable. This is pure political bullshit."*
