TO: Senator Jennifer Shilling
Room 206 South, State Capitol

FROM: Dave Loppnow, Assistant Director

SUBJECT: Comparison of School Aid Funding in DPI Agency Budget Requests and Governor's Budget Recommendations

At your request, I am providing information relating to the amount of funding requested for school aids under the agency budget request submitted by the Department of Public Instruction (DPI) and the amount recommended by the Governor in his budget proposal for each biennium since 2011-13.

Each biennium, state agencies submit their budget request for funding in the next biennium by September 15 of the even-numbered years. The Governor considers these requests and submits his budget recommendations for all state programs drafted as a bill for introduction in the following January or February.

You asked for a comparison for each biennium since 2011-13 of the amount of funding that DPI requested for state school aids compared to the amount included in the Governor's budget recommendations. This comparison is shown in the table below.

**Comparison of Funding for State School Aids in DPI Agency
Budget Request and as Proposed in the Governor's Budget Bill
(in Millions)**

	<u>DPI Agency Request</u>	<u>Governor's Budget Bill</u>
2011-13	\$477	-\$841
2013-15	622	111
2015-17	614	19
2017-19	708	648

I hope that this information is helpful. Please contact me if you have questions.
