Statement by State Senator Alberta Darling on G.A.B. Reform

MADISON - On Tuesday, the Co-Chair of the budget-writing, Joint Committee on Finance, State Senator Alberta Darling (R-River Hills) issued the following statement in support of eliminating the Government Accountability Board (G.A.B.):

"When the election watchdog in the state refuses to enforce our laws for 16 straight elections, you have to wonder what they are watching out for. National media stories have chronicled the G.A.B's partisan abuses and exposed the agency's leader for what he is: a corrupt political activist.

The failed experiment at the G.A.B is over. Wisconsin will be back in line with every other state in the nation in how elections are handled. The current G.A.B. was an exception to the rule. That exception has turned out to be an exceptional failure."

Senator Darling represents portions of Milwaukee, Ozaukee, Washington and Waukesha Counties.
