September 23, 2019

TO: Representative Robin Vos  
Room 217 West, State Capitol

FROM: Christa Pugh, Fiscal Analyst

SUBJECT: Personal Electronic Computing Device Grants

At your request, I am providing information about personal electronic computing device grants awarded in 2018-19.

Under the personal electronic computing device program, school districts, independent charter schools, private schools, and tribal schools could receive grants equal to \$125 per ninth grade pupil, if they provided equal matching funds. Grants could only be used for the following purposes: (a) to purchase personal electronic computing devices; (b) to purchase software for personal electronic devices; (c) to purchase curriculum which includes content that may be accessed on a personal electronic computing device; or (d) to train staff on how to effectively incorporate personal electronic computing devices into a classroom and into a high school curriculum. The program was created under 2017 Act 59, under which grants would have been awarded beginning in the 2018-19 school year and ending in the 2022-23 school year. Funding for the program for 2019-20 and 2020-21 was deleted under 2019 Act 9 as a result of a gubernatorial veto.

Based on preliminary information, 378 school districts were eligible for payments under the program in 2018-19, and all 378 applied for the grant. Additionally, four independent charter schools and 89 private schools applied for funding under the program. The attachment shows preliminary grant award amounts for public school districts, independent charter schools, and private schools in 2018-19. The deadline for school districts and other eligible entities to submit claims is September 30; final award amounts will be available after that date.

I hope this information is helpful. Please contact me if you have additional information.
