Regional Hazardous Substance Emergency Response Teams -- Equipment Grants

Motion:

Move to provide \$500,000 GPR in 2017-18 to award grants to local units of government with which the Division of Emergency Management in the Department of Military Affairs (DMA) contracts with for regional hazardous substance emergency response services. Provide that the grants may be utilized to support the replacement of equipment utilized for hazardous substance emergency response. Create a continuing GPR appropriation within DMA's emergency management services program for this purpose.

Note:

The Division of Emergency Management in DMA contracts with various local units of government across the state to receive regional hazardous substance emergency response services. Under the bill, \$1,247,400 GPR annually is provided for these contracts.

This motion appropriates \$500,000 GPR in 2017-18 to award grants to these local units of government to support the replacement of equipment utilized by these local units of government for hazardous substance emergency response. Funding is appropriated to a continuing appropriation. As a result, DMA would be authorized to expend unspent amounts from the appropriation in subsequent fiscal years until fully expended.

[Change to Base: \$500,000 GPR]

[Change to Bill: \$500,000 GPR]
