

SHARED REVENUE AND TAX RELIEF -- DIRECT AID PAYMENTS

Public Utility Aid Distributions for Certain Municipalities

Motion:

Move to modify the per capita payment limitation under the public utility aid distribution so that it does not apply to a municipality whose payment was first limited by the provision after 2010. Sunset this exclusion so that it does not apply to distributions after 2022. Increase the estimated sum sufficient public utility aid appropriation by \$134,500 GPR in 2017-18 and \$80,600 GPR in 2018-19. Require the Department of Revenue to lapse \$134,500 in 2017-18 and \$80,600 in 2018-19 from its general program operations appropriation under its administrative services and space rental program.

---

Note:

The per capita limitation under the public utility aid distribution limits the combined payments under the mill rate and basic capacity formulas to no more than \$425 per person for municipalities and \$125 per person for counties. This motion would waive the limitation for purposes of aid payments to the Village of Cassville in Grant County for the period between 2017 and 2022. In addition to Cassville, payments are also currently limited to the City of Alma (Buffalo) and the Town of Two Creeks (Manitowoc), but their payments would not be affected by the motion. Currently, no payments to counties are limited.

[Change to Base: \$215,100 GPR; \$215,100 GPR-Lapse; and Net GPR Change \$0]

[Change to Bill: \$215,100 GPR; \$215,100 GPR-Lapse; and Net GPR Change \$0]
