Subject: Open record request

Follow Up Flag: Follow up
Flag Status: Flagged

Dear Senator Craig:

Under the state's Open Records Law (§§19.31-39, Wisconsin Statutes). I request electronic records of any and all citizen correspondence, including phone calls, related to the recent special session called by Gov. Evers on October 21, 2019 and the two bills that address background checks and extreme risk protection. My request time frame covers correspondence received by you from October 22, 2019 up to and including November 11, 2019. If you have already trashed such correspondence, I expect you to retrieve it and send it to me electronically.

Please send me any and all such correspondence from citizens regardless of whether they live in your district. Your actions affect the entire state. We are all your constituents.

I want these records electronically. They can be attached to an email, saved to a flash drive, burned to a CD and mailed, or uploaded to a private link you will send me that can be deactivated as soon as I've downloaded the records. On June 5, 2019, the Wisconsin Court of Appeals – District 2, issued its unanimous opinion that, when a requester asks for electronic records, responsive records must be provided in electronic form.

Because I specifically request to receive this information electronically, I expect there will be no charges.

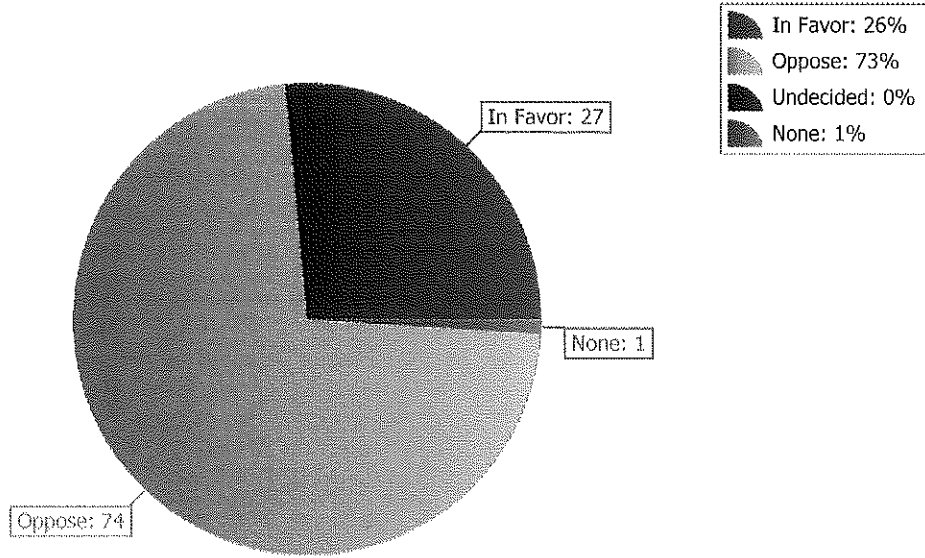

The Open Records law “shall be construed in every instance with the presumption of complete public access consistent with the conduct of governmental business. The denial of access generally is contrary to the public interest and only in exceptional cases can access be denied.” If you deny this request, the law requires you to do so in writing and state what part of the law you believe entitles you to deny my request. Wis. Stat. § 19.35(4)(a).

I look forward to your written response to me within ten (10) business days of your office receiving this request. Thank you.

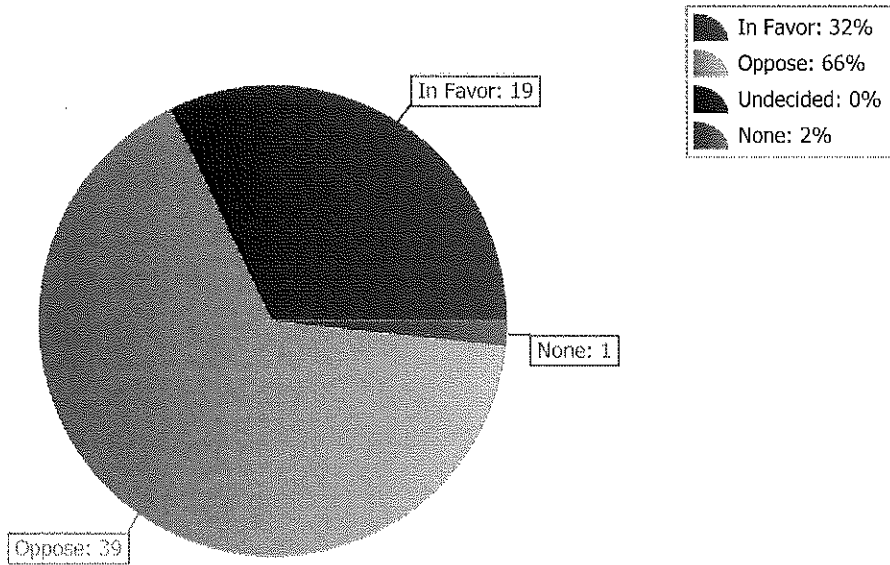

Sincerely,

Sheila K. Plotkin

Senator David Craig
Representative Mike Kuglitsch

Dear Senator Craig and Representative Kuglitsch,

As you know, Governor Evers has requested a special legislative session for consideration of several bills he alleges will prevent gun crimes. I wanted to provide my viewpoint in advance of this session, should it occur.

Universal Background Checks

For several years now Democrats have been advocating nationally for the passage of so-called "universal background checks," often without precise definitions and without any evidence of efficacy, as somehow being the solution to each and every crime involving a firearm. They have even been successful in passing this type of law in several states. Now Governor Evers wants to bring this questionable law to Wisconsin.

When I look at those states that have previously implemented universal background checks, such as California, I don't see any evidence there has been an impact on gun crime. When I look at the high-profile mass shootings that have occurred in the US the last several years, I see that nearly every perpetrator acquired their weapons legally, from a licensed firearms dealer, after passing existing background checks. When I look at the gun-related crimes in the inner core of cities such as Milwaukee and Chicago, I see felons (often repeat felons roaming the streets after receiving a "slap on the wrist" from prosecutors for prior crimes) using prohibited weapons in the commission of their crimes, weapons that were either stolen or purchased from the "black market." (IE, a background check of any type would be irrelevant).

Universal background checks would have to be "voluntary," given there is no mechanism in place to police individuals buying from, and selling to, other individuals. What sane criminal is going to "volunteer" to have his behavior documented?

It seems to me that universal background checks would affect only law-abiding gun owners, imposing heavy bureaucracy, costs, and potential criminal liability on individuals selling or trading their legally-owned personal property.

The fact that Democrats want to prioritize a law that will impact only law-abiding citizens and would have negligible impact on those using guns in the commission of crimes reveals their true intent, which is to use this law as an exercise in "virtue signaling;" to show their supporters that they are "doing something" about guns and portray their opponents as "evil." If Democrats truly wanted to address criminal use of guns, they would instead: a) press to fix some of the shortcomings in the existing background check system, b) require prosecutors and judges to increase penalties to keep violent felons and repeat offenders in prison and off the streets, and c) focus on, and increase penalties for, gun crimes. They are not, so I can't take their proposals seriously.

Given that universal background checks would only impact those not predisposed to using guns to commit crimes, and will have virtually no impact on those engaged in crime, I am opposed to adopting universal background checks in Wisconsin, and I urge you to vote against any such related legislation should it materialize in the Wisconsin legislature.

Red Flag Law

So-called "red flag" laws seem to be another popular cause with the anti-gun Democrat party. Again, a number of states have previously adopted these types of laws. Often after passing these laws, I've noticed that many states have subsequently revised the laws to make them easier to employ by removing what little protections exist for citizens accused of being "dangerous." I have been keenly reviewing news stories about these laws over the last year, and I am appalled at how these laws are being abused across the country to deprive citizens of their constitutional rights, and property, without appropriate due process. Citizens are being deprived of their property after simply being accused, without appropriate investigation, without representation, often without being formally charged, let alone convicted, of an actual statutory crime, and often without facing an accuser. Sometimes, they are deprived of property due to improper "thoughts" or improper "speech." They are assumed guilty until they can prove themselves innocent, usually requiring retention of legal representation at great expense over a long period of time. There is usually no jury trial, and accusers are not required to prove their case beyond a "reasonable doubt;" simple statements of accusation are enough to "convict."

These red flag laws are really a travesty in a country where a constitution and a proper due process is supposed to protect innocent people from being wrongly accused and "convicted." I hope you find the proposed red flag law as abhorrent as I do, and will vote to prevent adoption in Wisconsin.

Sincerely,

Jan G. Kolek

Sen Craig, Man you are good. What a powerful presentation. However, I wish you would have been as forceful in convincing your leader and caucus to at least encourage discussion on gun show sale background checks and red flag laws. Discuss the subject, get ideas out there, debate. Change is possible with in the second amendment while protecting gun ownership. The gavel in and out in seconds was an insult to the people of our state. You are all elected to serve broader not partisan self serving interest. People want these issues addressed in a thoughtful manner. This all from one of your staunch supporters.

It would be great if you would champion a bipartisan redrawing of the electoral maps so that they are not gerrymandered in such a way that all but assures a GOP majority.

In addition, ensuring that all people have the right and ability to vote would be another great idea to support.

Also, please bring up the background check and red flag law legislation that the special session was called for but which the majority leader opened and closed without any hearing or debate.

Mr. Craig and Mr. Kuglitsch,
The Special Session is in progress, but perhaps you'll be checking messages during this time.

Please promote discussion on the designated topic -- gun control. I prefer to refer to it as reasonable gun ownership. Why are Republicans so afraid to engage in any discussion, discussion of any reasonable measures to stop the gun violence? Man-up on this and stop avoiding the topic as Vos and Fitzgerald are so inclined to do. Are you beholden to the NRA?

You know that the majority of people favor stronger measures to reduce gun violence -- before they or their loved ones, neighbors, colleagues, etc., are the victims of it. How many more shootings and mass shooting deaths have to occur? Demonstrate some respect and do the right thing if you have any integrity, ethics and moral compass as individuals. You can move your colleagues.

The Second Amendment references "A well regulated Militia" in terms of right to bear arms. Who among all the gun owners are part of a "well regulated Militia"? This does not give carte blanche for just anyone to own a gun much less a military assault type weapon.

Do something and don't hide behind Vos, Fitzgerald, the NRA.

Subject: Please vote in the special session for life-saving laws to prevent gun violence

Dear Senator Craig,

As a person of faith and your constituent, I ask you to please support two evidence-based policies that will reduce firearm deaths.

Requiring background checks on all gun sales will close a major gun safety loophole and help keep firearms out of the hands of dangerous persons.

Extreme risk protective orders (ERPOs) will enable families to petition the court to temporarily remove firearms when loved ones are in imminent danger of harming themselves or others.

These sensible measures are supported by 80% of Wisconsin residents, including gun owners.

Such laws have been passed in other states and have been shown to reduce firearm fatalities.

Courts have upheld universal background checks and extreme risk protective orders as constitutional.

I respectfully urge you to support background checks on all gun sales and ERPO in the November 7 Special Session.

Thank you for your attention to my concerns.

Sincerely,

Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights

Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers.

Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,
David Hickey

Re: Say "no" to Governor Evers' call for a "Red Flag" law

Dear Senator Craig,

The entire premise of Gov. Evers' special session is unacceptable. He was not satisfied with one "no" from the people of Wisconsin, so he is trying to pass his gun control measures again.

I urge you to stand firm in defense of the rights of Wisconsinites to keep and bear arms. Please tell the Governor that we will not accept any gun control in our state. Vote down any measures put forth by Gov. Evers or his administration that will further restrict the rights of the people of Wisconsin and say "no" to his proposed "Red Flag" law, which is just political doublespeak for a Gun Confiscation Order.

The people of your district have placed their trust in you to defend their rights and the rights of all the people of Wisconsin. Do not give in and turn your back on us now.

Sincerely,
Douglas Peshak

Ken,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

It would be great if you would champion a bipartisan redrawing of the electoral maps so that they are not gerrymandered in such a way that all but assures a GOP majority.

In addition, ensuring that all people have the right and ability to vote would be another great idea to support.

Also, please bring up the background check and red flag law legislation that the special session was called for but which the majority leader opened and closed without any hearing or debate.

It's time to end the stadium tax for good!

Senate Advances Resolution to Kill the "Zombie Veto"

This week, the State Senate was in session to vote on a number bills including my constitutional amendment to prevent the governors partial-veto authority from being used to increase spending. The "zombie veto" which was used to resuscitate

dead spending in the budget without legislative approval was an intrusion into the exclusive realm of the legislature - the power of the purse.

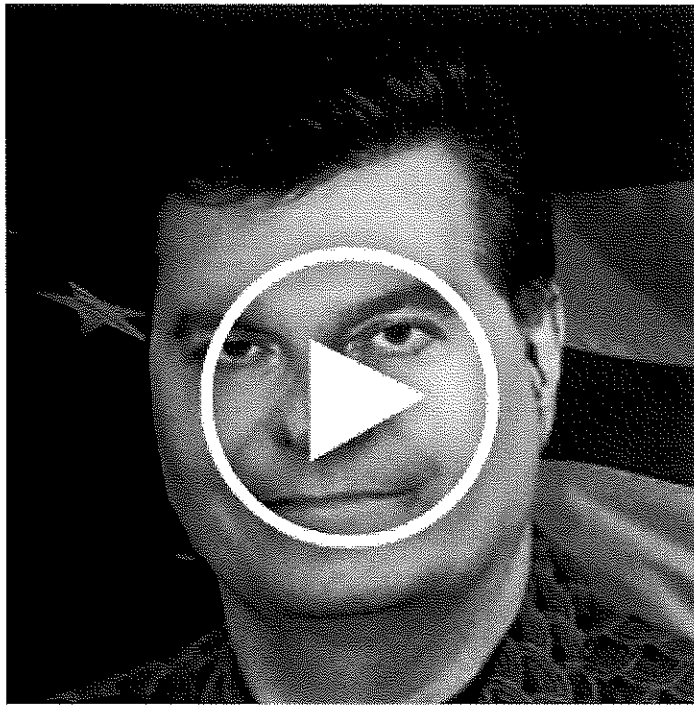

My amendment would prevent any future governor - Republican or Democrat - from using the partial veto to increase spending. It's that simple. However, this simple change could have a profound positive impact on taxpayers.

Watch my speech on the Senate Floor in defense of my constitutional amendment from partisan attacks.

It's clear that the amendment would protect the legislature's core authority to make laws and set spending limits - a cornerstone of the Separation of Powers - and this amendment would preserve that important constitutional principle by enshrining this clear language into the constitution. This issue should be a bi-partisan effort in the legislature, however, every Democrat in the State Senate voted against the measure. Previous amendments to end the "Vanna White" and "Frankenstein" vetoes which also limited the gubernatorial partial-veto pen were passed with large bi-partisan majorities.

Listen to Mark Belling discuss the issue on his program this week:

Later this week, I will be on NBC 15's Capital City Sunday, a statewide political program, to discuss my constitutional amendment and the Senate's decision not to confirm Governor Evers' nominee for DATCP Secretary. I was joined by State Senator Jon Erpenbach (D- Middleton) for a lively debate on the topics. The recorded broadcast will air on Sunday, November 10th.

(Behind the scenes at WKOW studios while taping the interview)

Meeting with Constituents in the Capitol

It has been a busy week in the Capitol and, in addition to Senate Floor Session, I had the opportunity to meet with Mary Starr of Franklin and Beth Grosman of New Berlin who visited my office on behalf of the American Heart Association. We discussed important public health issues in the legislature. It is always a pleasure to meet with constituents both in the district and in Madison.

Sen Craig, Man you are good. What a powerful presentation. However, I wish you would have been as forceful in convincing your leader and caucus to at least encourage discussion on gun show sale background checks and red flag laws. Discuss the subject, get ideas out there, debate. Change is possible with in the second amendment while protecting gun ownership. The gavel in and out in seconds was an insult to the people of our state. You are all elected to serve broader not partisan self serving interest. People want these issues addressed in a thoughtful manner. This all from one of your staunch supporters.

Mr. Craig and Mr. Kuglitsch,
The Special Session is in progress, but perhaps you'll be checking messages during this time.

Please promote discussion on the designated topic -- gun control. I prefer to refer to it as reasonable gun ownership. Why are Republicans so afraid to engage in any discussion, discussion of any reasonable measures to stop the gun violence? Man-up on this and stop avoiding the topic as Vos and Fitzgerald are so inclined to do. Are you beholden to the NRA?

You know that the majority of people favor stronger measures to reduce gun violence -- before they or their loved ones, neighbors, colleagues, etc., are the victims of it. How many more shootings and mass shooting deaths have to occur? Demonstrate some respect and do the right thing if you have any integrity, ethics and moral compass as individuals. You can move your colleagues.

The Second Amendment references "A well regulated Militia" in terms of right to bear arms. Who among all the gun owners are part of a "well regulated Militia"? This does not give carte blanche for just anyone to own a gun much less a military assault type weapon.

Do something and don't hide behind Vos, Fitzgerald, the NRA.

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

11/13/2019

Contact Report

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Stephen Bell

Description: Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights

Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,

Roger Berte

Summary: Response

Description: Roger,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at

Summary: Response to Response

Description: Dear Senator Craig,

With all due respect, your defense of the second amendment is a CANARD!! In using the phrase, "the right to bear arms," the original framers never meant to refer to individuals possessing guns. "Bear arms" refers to militias and what we now term the "national guard" of each state. Read some history and get with the governor's special session bills.

 Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

11/13/2019

Contact Report

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Gary Blum

Description: Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights
Dear Senator Craig,
As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?
The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Summary:

Description: Dean,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig
State Senator
28th District

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

Contact Report

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Dean Drew

Subject: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights

Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights
Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones? The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,
Philip Ehlers

Dear Senator Craig,

As your constituent, I urge you to oppose any gun control schemes that Gov. Evers and Attorney General Kaul support, especially any legislation that would allow the seizure of firearms without due process. I understand why the second amendment was added to the constitution as well as what the term "shall not be infringed" means. Why don't so many elected officials? Could it be they are afraid of not being able to do what our forefathers were trying to prevent?

Sincerely,

Chuck Frentzel

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,
 Wade Grubich

Summary: Response

Description: Wade,
 Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.
 Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.
 Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come

Description: Subject: Take action to prevent gun violence

Dear Senator Craig,

I applaud Governor Evers' call for a special session to address gun violence.

As your constituent, I want to let you know that I proudly stand with Governor Evers as he calls on you to support two essential, evidence-based policies, proven to reduce firearm fatalities: requiring background checks on all gun sales and giving families the ability to petition the court for an extreme risk protective order (ERPO), which will allow for the temporary removal of firearms when loved ones are in imminent danger of hurting themselves or others.

You have an opportunity and responsibility to join with the 80% of Wisconsinites, including gun owners, who support these policies. I strongly urge you to vote in favor of background checks on all gun sales and ERPO during the special session.

Sincerely,

Sincerely,

Summary: Contact

Description: Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

mark hurst

Description: Mark,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

11/13/2019

Contact Report

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Description: Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights
Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,

Rob Juszczak

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Cynthia Luecht-wilcox

Summary: Response

Description: Michael,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig

Dear Senator Craig,
As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

11/13/2019

Contact Report

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,
Lee Lovcall

Summary:

Description: Rick,

Thank you for contacting me regarding the Article V constitutional amendment process. I appreciate hearing from you on this important matter.

First please know that in November 2017, I was one of the legislative leaders in passing a Joint Resolution applying for an amendatory convention to require the federal government to operate under a balanced budget. We passed two other bills that would outline specific rules and detailed procedures for an Article V convention and legislation that would guide the selection of delegates for a convention to prevent a so-called "runaway convention". For more information about the need for this historic legislation, please read this piece in the Washington Examiner. I look forward to the day that the final six states required to call for a convention pass applications out of their legislatures.

Additionally, the portion of the proposed resolution calling to: "limit the terms of office for its officials" is cause for caution, because the language would seemingly apply term limits to the judicial branch. Such language is extraordinarily broad and rejects the logic of the Founders as articulated in Federalist No. 78 by Alexander Hamilton: "For I agree, that "there is no liberty, if the power of judging be not separated from the legislative and executive powers." [2] And it proves, in the last place, that as liberty can have nothing to fear from the judiciary alone, but would have everything to fear from its union with either of the other departments; that as all the effects of such a union must ensue from a dependence of the former on the latter, notwithstanding a nominal and apparent separation; that as, from the natural feebleness of the judiciary, it is in continual jeopardy of being overpowered, awed, or influenced by its co-ordinate branches; and that as nothing can contribute so much to its firmness and independence as permanency in office, this quality may therefore be justly regarded as an indispensable ingredient in its constitution, and, in a great measure, as the citadel of the public justice and the public security."

This is a change that I continue to deliberate on, but have reservations over given the deliberation of our Founders on insulating the judiciary from the political process. Please know that I remain committed to the Article V movement as a whole, and look forward to the federal Balanced Budget Amendment being enacted.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (608) 266-5400 or email me at Sen.Craig@legis.wi.gov.

Summary: Response

Description: Mary,
Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt “Red Flag Gun Seizure” proposals or other new gun control legislation. I appreciate hearing from you on this important matter.
Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the “Right to Carry” Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.
Please know that I will strongly oppose any efforts to institute so-called “Red Flag Laws” which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.
Best Wishes,

David Craig
State Senator
28th District

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

11/13/2019

Contact Report

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Timothy Odor

Description: Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights
Dear Senator Craig,
As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?
The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig
State Senator
28th District

Subject: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights

Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights
Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,
Bruce Scott

Summary:

Description: Ron,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

Contact Report

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Ron Scott

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Justin Strohmeier

Dear Senator Craig,
As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers'

11/13/2019

Contact Report

continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones? The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,
Glen Swift

Summary: Response

Description: Glen,
Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.
Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.
Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.
Best Wishes,

Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig
State Senator
28th District

Contact Report

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Benjamin Young

Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights

Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers.

Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,

John Zaganczyk

Description: Subject: Support Background Checks and an Extreme Risk Protection Order Bill During Special Session (message from WI resident Mr. Manuel Bermudez)

Dear Senator David Craig,
Governor Evers has called for a special session to focus on gun safety measures on November 7th. As your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence. Assembly Bill 431 would require background checks on all gun sales. The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.
An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.
This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.
Sincerely,
Mr. Manuel Bermudez
Big Bend, WI 53103

I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.
Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Description: Subject: Support Background Checks and an Extreme Risk Protection Order Bill During Special Session (message from WI resident Mrs. Brenda Letellier)

Dear Senator David Craig,

Governor Evers has called for a special session to focus on gun safety measures on November 7th. As your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence. Assembly Bill 431 would require background checks on all gun sales. The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.

An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.

This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.

Sincerely,

Mrs. Brenda Letellier
New Berlin, WI 53151

Brenda,

Thank you for contacting my office to express your support for the Governor calling a Special Session to adopt background checks and "Red Flag Gun Seizure" legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would do us harm with the rights afforded by the U.S. Constitution. Rest assured that I will carefully consider all matters relating to the 2nd Amendment very judiciously to ensure that no one is deprived of their life, liberty or property without due process of law while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Description: The latest Marquette poll shows over 80% of Wisconsinites support background checks & red flag law. They do not step on the 2nd amendment.

If you do not support these ideas, then you are not listening to, or acting on behalf of the majority of your current and future constituents. The times are changing. The voters under 35, and the next generation ready to turn 18, have very different goals than their predecessors. I am certain they will bring change on many issues that need it.

Sincerely,

Description: Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Robert Wincek

Description: Robert,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Contact Report

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

Summary: Response

Description: Oh for crying out loud! People are being deprived of their health and their lives and the health and lives of their family members and friends every day by people who have illegally obtained guns or obtained them without background checks. The Second Amendment begins 'A well-regulated militia...' There is nothing well-regulated about millions of guns being in the hands of US citizens. I cannot believe that measures that are supported by vast majorities of people, including gun owners, are met with resistance and opposition by Republicans. What will it take sir for you and your colleagues to DO SOMETHING to curtail the carnage being wrought by guns in this country? Our citizens are not safe at movie theaters, in their places of worship, where they shop, where they drive, at concerts they attend, in the elementary and high schools and universities they go to. When first and second graders were massacred at Sandy Hook, that should have instigated massive and definitive changes in our gun laws. Unless you are one of the people who deny that this happened, how can you justify not doing something to prevent that from happening again. It breaks my heart that my children have to have active shooter drills in their schools. No other country would tolerate this insanity. Please support the proposed Red Flag and Background check laws as at least a small start to safety for our children and ourselves. Thank you.

Dear Senator David Craig,
Governor Evers has called for a special session to focus on gun safety measures on November 7th. As your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence. Assembly Bill 431 would require background checks on all gun sales. The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.

An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.

This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.

Sincerely,
Jennifer Yourd
Muskego, WI 53150

Description: Senator Craig,

I have the perfect plan for Governor Evers. Let's give him authority to confiscate guns but it should only apply to the people who voted for him. His laws should apply to his supporters the rest of us he should leave be.

Thank you
Elwanda Cosby

Gov. Evers calls Special Session for more gun restrictions
This week, Governor Evers called on the legislature to convene for a Special Session to pass more gun laws. The problem is, Wisconsin already has volumes of laws relating to illegal gun ownership and usc. These laws are consistently ignored in certain portions of the state by elements of the criminal justice system.

Before we pass more laws restricting the rights of law-abiding gun owners, we should focus state resources on prosecuting the criminal, repeat offenders who violate our current gun laws and endanger our communities. The judges and DAs who do not take these laws seriously must be held accountable.

Governor Evers has already said he would consider gun confiscation from those who have committed no crime, yet felons in possession of firearms many times walk out of courthouses in Wisconsin with less than a slap on the wrist. It is ridiculous to suggest that we restrict the freedoms of law-abiding citizens when current laws involving violent, convicted felons possession of firearms are not being enforced by judges and DAs.
Gov. Evers Considering Gun Confiscation

(picture from Fox6now.com)

Late last month, Governor Evers held a press conference with fellow Democrats to roll out so-called "red-flag" legislation which would allow judges to take away an individual's Constitutional rights without proper due process. However, in a surprising moment of honesty during the press conference, Governor Evers let slip that he would also consider a "mandatory gun buyback" which is another way to say government confiscation of firearms. This statement is a complete flip-flop from his previous statements in August to Steve Scaffidi on WTMJ saying gun control "is not about taking guns away".
Listen here to my interview with Vicki McKenna about Governor Evers' consideration of an unconstitutional gun grab.

Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos released a statement sharing their opposition to the very idea of firearms confiscation. Rest assured, I will continue to vigilantly guard against the infringement, and flat-out denial, of your Constitutional rights.

New "Red-flag" Laws Not Needed in Wisconsin
Wisconsin already has extensive tools for law enforcement and the courts to properly intervene and adjudicate

Contact Report

an individual who presents a harm to themselves or others. Most importantly, the current court-tested processes uphold an individual's right to due process and gives a clear path for law enforcement, the courts, and medical professionals to follow.

Chapter 51 in the Wisconsin state statutes provides for emergency detentions for potentially dangerous individuals. After receiving reports of emergency detention from the responding law enforcement agency and recommendations of the psychiatrist at the mental health detention facility, the court can proceed with a hearing and decide whether or not the individual needs further intervention. If it is determined that the individual is a danger, the court can prohibit that individual from possessing a firearm and order the surrender of their firearms. This allows for the opportunity to appear before a judge at a hearing prior to the surrendering of one's rights.

The "red-flag" legislation being proposed by the Wisconsin Democrats is extreme. In fact, many of the "red-flag" bills proposed or passed in other states trample on the Constitutional right to due process. The legislation proposed by Wisconsin Democrats is no different.

Under their bill, a mere acquaintance could file a petition for gun confiscation alleging you are dangerous and/or unfit to own firearms. These "facts" can be considered and, without a hearing or even personal notification of the complaint, an officer could be sent to your door to collect your guns.

Beyond the confusion and potential danger of this surprise interaction with police, the burden is now on you to hire an attorney, defend against the allegations made, and petition the court to have your rights restored. This is the antithesis of due process and is wholly un-American. The bill is dangerous, extreme, and not needed.

Description: Dear Senator Craig,

I strongly agree with your efforts to block Evers on trying to take away guns from law abiding citizens. Your exactly right when you stated that we have enough gun laws, but are not being followed by the District Attorney's, denying prosecution and to much plea bargaining. Then we have the Judge's not doing their jobs in sentencing. Many of the excellent veteran Judge's have retired and the new one's have never been mentored properly or many not even listen. If I can be of any assistance please feel free to contact me. Thanks for your other bill that was sent to me for an opinion. Great legislation if presented and long over due. At no fault of your own I know the penalties will be almost none existence because you can't attach any jail time which is the only way you bill would have a better impact.

On the Mental health side you talked about I certainly have questions about Ch. 51. To be honest many of the Doctors that meet with people brought in on a Ch. 51 should not even have happened. I've been told it's actually almost an abuse action by the police because it's the easy way out to take care of a perceived problem when in fact it's not even a Ch. 51 issue and many people are brought there and released because it doesn't meet near the requirements. Just food for thought. Again, special thanks for all your doing on behalf of the people including the Farmers in this State.

Regards,

District News

I had the opportunity to tour Paul Frost Farms in Waterford to learn more about the issues important to the dairy industry, especially in Southeast Wisconsin. The Republican Legislature has done much to improve the tax and regulatory environment for farmers in our state - preserving our state's standing as America's Dairyland.

Gov. Evers calls Special Session for more gun restrictions

This week, Governor Evers called on the legislature to convene for a Special Session to pass more gun laws. The problem is, Wisconsin already has volumes of laws relating to illegal gun ownership and use. These laws are consistently ignored in certain portions of the state by elements of the criminal justice system.

Before we pass more laws restricting the rights of law-abiding gun owners, we should focus state resources on prosecuting the criminal, repeat offenders who violate our current gun laws and endanger our communities. The judges and DAs who do not take these laws seriously must be held accountable.

Governor Evers has already said he would consider gun confiscation from those who have committed no crime, yet felons in possession of firearms many times walk out of courthouses in Wisconsin with less than a slap on the wrist. It is ridiculous to suggest that we restrict the freedoms of law-abiding citizens when current laws involving violent, convicted felons possession of firearms are not being enforced by judges and DAs.
Gov. Evers Considering Gun Confiscation

(picture from Fox6now.com)

Late last month, Governor Evers held a press conference with fellow Democrats to roll out so-called "red-flag" legislation which would allow judges to take away an individual's Constitutional rights without proper due process. However, in a surprising moment of honesty during the press conference, Governor Evers let slip that he would also consider a "mandatory gun buyback" which is another way to say government confiscation of firearms. This statement is a complete flip-flop from his previous statements in August to Steve Scaffidi on WTMJ saying gun control "is not about taking guns away".

Description: Dear Senator Craig,

Wisconsin needs gun control. Heck, this whole country needs gun control. Military type guns are needed by our military and our police, not by ordinary citizens. Military type weapons can take down a large land mammal, like a bison. There are no bison running amok through my flower beds.

Our Second Amendment was enacted when single firing muskets were necessary for killing of game for food, as well as for protection against the British Army. Most of us get our meat at supermarkets today. And the British are long gone. The colonial militias have been replaced by our state National Guards. They do a splendid job.

There are any number of sensible gun control measures that you and your colleagues can enact. I wish you'd get busy and do it.

Yours truly,

Linda Harris

Message

Just finished reading your email regarding gun confiscation and I'm appalled by your views. We need you to help reduce the gun violence, why isn't it okay to take weapons away from those who are deemed a threat to themselves or society? I served in the army and during basic training, deployments, if a soldier displayed signs of threatening behavior their weapons, rounds and shoe laces were taken! Now I know those are extreme situations, but some Milwaukee streets are can be extreme too. What about Amando Lang stabbing the surveyor from Madison? People that were close to Lang knew he suffered from a mental disorder. The red flag law could prevent situations where there are recognizable signs of life threatening behavior.

Description: Senator Craig,

I want to thank you for your stance on red flag laws. Firearms aside, they are unconstitutional and should never be considered. In regards to firearms, thank you again for your stance. We have enough laws that often get ignored. I would love to see some of our laws be repealed. Of those laws, I would like to see constitutional carry pass in Wisconsin. I would also like to see the handgun hotline abolished (along with the insane \$10 per background check fee). Repealing these two laws would be a great start, however, our State still has a long way to go to be "gun friendly" and provide the citizens the lawful protections needed. Wisconsin NEEDS "stand your ground" laws in place to protect acts of self-defense.

Please consider using this special session as a chance to advance the gun rights in our great State!

Sincerely,
Garrett I. Lenz

Assault weapons should be reserved for military, police and with a special permit, collectors.

Yeah yeah yeah, I know the criminals will still get them, but those aren't the guys shooting up schools and churches and shopping malls. It's white, mostly suburban, males doing the killing with assault weapons.

So, I'm absolutely, positively, 100% in favor of a certain weapons... being turned in. Let's not inflate the conversation by focusing on the word "confiscated".

You and I both know there's plenty of room for negotiation on this matter. Don't run away from the conversation by sidling up with one viewpoint only.

You're supposed to represent me also.

Subject: Gun Confiscation is too extreme for WI

Contents

- Gov. Evers Considers Gun Confiscation
- Interview w/ Vicki McKenna

District News

I had the opportunity to tour Paul Frost Farms in Waterford to learn more about the issues important to the dairy industry, especially in Southeast Wisconsin. The Republican Legislature has done much to improve the tax and regulatory environment for farmers in our state - preserving our state's standing as America's Dairyland.

Gov. Evers calls Special Session for more gun restrictions

This week, Governor Evers called on the legislature to convene for a Special Session to pass more gun laws. The problem is, Wisconsin already has volumes of laws relating to illegal gun ownership and use. These laws are consistently ignored in certain portions of the state by elements of the criminal justice system.

Before we pass more laws restricting the rights of law-abiding gun owners, we should focus state resources on prosecuting the criminal, repeat offenders who violate our current gun laws and endanger our communities. The judges and DAs who do not take these laws seriously must be held accountable.

Governor Evers has already said he would consider gun confiscation from those who have committed no crime, yet felons in possession of firearms many times walk out of courthouses in Wisconsin with less than a slap on the wrist. It is ridiculous to suggest that we restrict the freedoms of law-abiding citizens when current laws involving violent, convicted felons possession of firearms are not being enforced by judges and DAs.
Gov. Evers Considering Gun Confiscation

Contact Report

Late last month, Governor Evers held a press conference with fellow Democrats to roll out so-called "red-flag" legislation which would allow judges to take away an individual's Constitutional rights without proper due process. However, in a surprising moment of honesty during the press conference, Governor Evers let slip that he would also consider a "mandatory gun buyback" which is another way to say government confiscation of firearms. This statement is a complete flip-flop from his previous statements in August to Steve Scaffidi on WTMJ saying gun control "is not about taking guns away".

Listen here to my interview with Vicki McKenna about Governor Evers' consideration of an unconstitutional gun grab.

Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos released a statement sharing their opposition to the very idea of firearms confiscation. Rest assured, I will continue to vigilantly guard against the infringement, and flat-out denial, of your Constitutional rights.

New "Red-flag" Laws Not Needed in Wisconsin

Wisconsin already has extensive tools for law enforcement and the courts to properly intervene and adjudicate an individual who presents a harm to themselves or others. Most importantly, the current court-tested processes uphold an individual's right to due process and gives a clear path for law enforcement, the courts, and medical professionals to follow.

Chapter 51 in the Wisconsin state statutes provides for emergency detentions for potentially dangerous individuals. After receiving reports of emergency detention from the responding law enforcement agency and recommendations of the psychiatrist at the mental health detention facility, the court can proceed with a hearing and decide whether or not the individual needs further intervention. If it is determined that the individual is a danger, the court can prohibit that individual from possessing a firearm and order the surrender of their firearms. This allows for the opportunity to appear before a judge at a hearing prior to the surrendering of one's rights.

The "red-flag" legislation being proposed by the Wisconsin Democrats is extreme. In fact, many of the "red-flag" bills proposed or passed in other states trample on the Constitutional right to due process. The legislation proposed by Wisconsin Democrats is no different.

Under their bill, a mere acquaintance could file a petition for gun confiscation alleging you are dangerous and/or unfit to own firearms. These "facts" can be considered and, without a hearing or even personal notification of the complaint, an officer could be sent to your door to collect your guns.

Beyond the confusion and potential danger of this surprise interaction with police, the burden is now on you to hire an attorney, defend against the allegations made, and petition the court to have your rights restored. This is the antithesis of due process and is wholly un-American. The bill is dangerous, extreme, and not needed.

Description: Subject: Support Background Checks and an Extreme Risk Protection Order Bill During Special Session (message from WI resident Mr Edward Udovich)

Dear Senator David Craig,
 Governor Evers has called for a special session to focus on gun safety measures on November 7th. As your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence. Assembly Bill 431 would require background checks on all gun sales. The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.
 An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.
 This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.
 Sincerely,
 Mr Edward Udovich
 Greendale, WI 53129

Summary: Response

Description: Edward,
 Thank you for contacting my office to express your support for the Governor calling a Special Session to adopt background checks and "Red Flag Gun Seizure" legislation. I appreciate hearing from you on this important matter.
 Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would do us harm with the rights afforded by the U.S. Constitution. Rest assured that I will carefully consider all matters relating to the 2nd Amendment very judiciously to ensure that no one is deprived of their life, liberty or property without due process of law while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig

Description: Why do you consider background checks to be more useless laws. There is a loop hole that needs fixing Background checks at gun shows How can you consider this to be a violation of law abiding citizens. When there is prof that this will work against gun violence. The other law would save families from suicide and if this law was in effect in Florida the parkland shooting may not happen because the mother would have gotten help for her son. Apples and oranges. This does not effect law abiding citizens. Listen to your constituents. They want this law. Let me ask you this do you accept campaign contributions from NRA. Does this effect your vote. You are an elected official as such carry out our wishes.

Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos released a statement sharing their opposition to the very idea of firearms confiscation. Rest assured, I will continue to vigilantly guard against the infringement, and flat-out denial, of your Constitutional rights.

New "Red-flag" Laws Not Needed in Wisconsin

Wisconsin already has extensive tools for law enforcement and the courts to properly intervene and adjudicate an individual who presents a harm to themselves or others. Most importantly, the current court-tested processes uphold an individual's right to due process and gives a clear path for law enforcement, the courts, and medical professionals to follow.

Chapter 51 in the Wisconsin state statutes provides for emergency detentions for potentially dangerous individuals. After receiving reports of emergency detention from the responding law enforcement agency and recommendations of the psychiatrist at the mental health detention facility, the court can proceed with a hearing and decide whether or not the individual needs further intervention. If it is determined that the individual is a danger, the court can prohibit that individual from possessing a firearm and order the surrender of their firearms. This allows for the opportunity to appear before a judge at a hearing prior to the surrendering of one's rights.

The "red-flag" legislation being proposed by the Wisconsin Democrats is extreme. In fact, many of the "red-flag" bills proposed or passed in other states trample on the Constitutional right to due process. The legislation proposed by Wisconsin Democrats is no different.

Under their bill, a mere acquaintance could file a petition for gun confiscation alleging you are dangerous and/or unfit to own firearms. These "facts" can be considered and, without a hearing or even personal notification of the complaint, an officer could be sent to your door to collect your guns.

Beyond the confusion and potential danger of this surprise interaction with police, the burden is now on you to hire an attorney, defend against the allegations made, and petition the court to have your rights restored. This is the antithesis of due process and is wholly un-American. The bill is dangerous, extreme, and not needed.

Senator Craig

I was disappointed that the legislature did not take up the challenge of working to decrease gun violence. sen Fitzgerald is not doing Wisconsin any favors. A majority of the Wisconsin population favors increased scrutiny of gun buyers and owners. The legislature can help. Guns should be registered and tracked, just like cars. If gun owners act responsibly, this won't be a problem for them. Guns, especially hand guns, like cars, are deadly weapons, and the public has a right to know who is behind their operation.

Thank you
John Lubing

Description: Keep up the good work, Sen. Craig.

I believe we have enough laws to keep guns out of criminals' hands without creating more. The laws on the books already need to be enforced.

Thank you,
Anna Farkas

Gov. Evers calls Special Session for more gun restrictions

This week, Governor Evers called on the legislature to convene for a Special Session to pass more gun laws. The problem is, Wisconsin already has volumes of laws relating to illegal gun ownership and use. These laws are consistently ignored in certain portions of the state by elements of the criminal justice system.

Before we pass more laws restricting the rights of law-abiding gun owners, we should focus state resources on prosecuting the criminal, repeat offenders who violate our current gun laws and endanger our communities. The judges and DAs who do not take these laws seriously must be held accountable.

Governor Evers has already said he would consider gun confiscation from those who have committed no crime, yet felons in possession of firearms many times walk out of courthouses in Wisconsin with less than a slap on the wrist. It is ridiculous to suggest that we restrict the freedoms of law-abiding citizens when current laws involving violent, convicted felons possession of firearms are not being enforced by judges and DAs.
Gov. Evers Considering Gun Confiscation

(picture from Fox6now.com)

Late last month, Governor Evers held a press conference with fellow Democrats to roll out so-called "red-flag" legislation which would allow judges to take away an individual's Constitutional rights without proper due process. However, in a surprising moment of honesty during the press conference, Governor Evers let slip that he would also consider a "mandatory gun buyback" which is another way to say government confiscation of firearms. This statement is a complete flip-flop from his previous statements in August to Steve Scaffidi on WTMJ saying gun control "is not about taking guns away".

Listen here to my interview with Vicki McKenna about Governor Evers' consideration of an unconstitutional gun grab.

Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos released a statement sharing their opposition to the very idea of firearms confiscation. Rest assured, I will continue to vigilantly guard against the infringement, and flat-out denial, of your Constitutional rights.

New "Red-flag" Laws Not Needed in Wisconsin

Description: Good Day Senator Craig,

You bring up many good points about gun laws and enforcement. I don't know the many details about Wisconsin or local gun laws so please pardon my ignorance.

1. You mention criminal elements still possessing guns after court proceedings. Why is that? Does law enforcement not have the authority to confiscate all guns possessed by anyone convicted of a crime? My mind thinks that if it was as simple as my question, law enforcement would already be doing it.
2. I agree with your thoughts about judges and DA being held accountable. I've done some searching for statistics regarding gun law violations being brought to court. I can't find anything significant. Even if these thousands of cases you hint at were properly prosecuted and all possessed firearms confiscated (See #1), what would stop these individuals from just walking into a gun show (maybe in another state) and acquiring more firearms? It seems to me that the holes allowing convicted individuals from acquiring more firearms legally, need to be plugged. I can't see this happening without a national firearm registration and transaction database.
3. I didn't follow the details of Gov. Evers and his thoughts on confiscation. There are good reasons to own some types of weapons. If he is referring to firearms like those used in all the mass violence incidents, I'm all for it. I've never heard a sound reason for private ownership of these weapons of mass destruction. If anyone owns firearms like this, they should be examined for mental health issues. Anybody that believes there are reasons to own these types of weapons also falls in the same category. I'll ask the question that you are ignoring.
 - a. It's illegal to own dynamite (without a permit), but legal to own an assault weapon. What's the difference?
 - b. A bullet is a miniature explosive device, why aren't gun magazine sizes regulated just as general explosives are?
4. Lastly you disagree with red flag laws. Sadly, this makes you an accomplice to many murders and suicides. As a volunteer with NAMI, I know a lot about Chapter 51 court proceedings. You should spend a week in a NAMI office to find out just why and how worthless this process is. I'll give you a real world example. My nephew had diagnosis of multiple mental illnesses. He was allowed to walk into a gun store and acquire a firearm. He could never have had his firearm confiscated by any existing national or local law. He committed suicide after posting about the stupid lawmakers that made it so easy for him to accomplish this. If you want the details, look them up. His name was Brian Baumberger.

Description: Dear Senator Craig,

I strongly agree with your efforts to block Evers on trying to take away guns from law abiding citizens. Your exactly right when you stated that we have enough gun laws, but are not being followed by the District Attorney's, denying prosecution and to much plea bargaining. Then we have the Judge's not doing their jobs in sentencing. Many of the excellent veteran Judge's have retired and the new one's have never been mentored properly or many not even listen. If I can be of any assistance please feel free to contact me. Thanks for your other bill that was sent to me for an opinion. Great legislation if presented and long over due. At no fault of your own I know the penalties will be almost none existence because you can't attach any jail time which is the only way you bill would have a better impact.

On the Mental health side you talked about I certainly have questions about Ch. 51. To be honest many of the Doctors that meet with people brought in on a Ch. 51 should not even have happened. I've been told it's actually almost an abuse action by the police because it's the easy way out to take care of a perceived problem when in fact it's not even a Ch. 51 issue and many people are brought there and released because it doesn't meet near the requirements. Just food for thought. Again, special thanks for all your doing on behalf of the people including the Farmers in this State.

Regards,

Robert J. Dams

 Subject: Support Background Checks and an Extreme Risk Protection Order Bill During Special Session
 (message from WI resident Mr. Manuel Bermudez)

Dear Senator David Craig,
 Governor Evers has called for a special session to focus on gun safety measures on November 7th. As your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence.

11/13/2019

Contact Report

Assembly Bill 431 would require background checks on all gun sales. The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.

An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.

This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.

Sincerely,

Mr. Manuel Bermudez
Big Bend, WI 53103

Summary: Response

Description: Manuel,

Thank you for contacting my office to express your support for the Governor calling a Special Session to adopt background checks and "Red Flag Gun Seizure" legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would do us harm with the rights afforded by the U.S. Constitution. Rest assured that I will carefully consider all matters relating to the 2nd Amendment very judiciously to ensure that no one is deprived of their life, liberty or property without due process of law while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig
State Senator
28th District

Gov. Evers calls Special Session for more gun restrictions

This week, Governor Evers called on the legislature to convene for a Special Session to pass more gun laws. The problem is, Wisconsin already has volumes of laws relating to illegal gun ownership and use. These laws are consistently ignored in certain portions of the state by elements of the criminal justice system.

Before we pass more laws restricting the rights of law-abiding gun owners, we should focus state resources on prosecuting the criminal, repeat offenders who violate our current gun laws and endanger our communities. The judges and DAs who do not take these laws seriously must be held accountable.

Governor Evers has already said he would consider gun confiscation from those who have committed no crime, yet felons in possession of firearms many times walk out of courthouses in Wisconsin with less than a slap on the wrist. It is ridiculous to suggest that we restrict the freedoms of law-abiding citizens when current laws involving violent, convicted felons possession of firearms are not being enforced by judges and DAs.
Gov. Evers Considering Gun Confiscation

(picture from Fox6now.com)

Late last month, Governor Evers held a press conference with fellow Democrats to roll out so-called "red-flag" legislation which would allow judges to take away an individual's Constitutional rights without proper due process. However, in a surprising moment of honesty during the press conference, Governor Evers let slip that he would also consider a "mandatory gun buyback" which is another way to say government confiscation of firearms. This statement is a complete flip-flop from his previous statements in August to Steve Scaffidi on WTMJ saying gun control "is not about taking guns away". Listen here to my interview with Vicki McKenna about Governor Evers' consideration of an unconstitutional gun grab.

Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos released a statement sharing their opposition to the very idea of firearms confiscation. Rest assured, I will continue to vigilantly guard against the infringement, and flat-out denial, of your Constitutional rights.

New "Red-flag" Laws Not Needed in Wisconsin

Wisconsin already has extensive tools for law enforcement and the courts to properly intervene and adjudicate an individual who presents a harm to themselves or others. Most importantly, the current court-tested processes uphold an individual's right to due process and gives a clear path for law enforcement, the courts, and medical professionals to follow.

Chapter 51 in the Wisconsin state statutes provides for emergency detentions for potentially dangerous individuals. After receiving reports of emergency detention from the responding law enforcement agency and recommendations of the psychiatrist at the mental health detention facility, the court can proceed with a hearing and decide whether or not the individual needs further intervention. If it is determined that the individual is a danger, the court can prohibit that individual from possessing a firearm and order the surrender of their firearms. This allows for the opportunity to appear before a judge at a hearing prior to the surrendering of one's rights.

The "red-flag" legislation being proposed by the Wisconsin Democrats is extreme. In fact, many of the "red-flag" bills proposed or passed in other states trample on the Constitutional right to due process. The legislation proposed by Wisconsin Democrats is no different.

Under their bill, a mere acquaintance could file a petition for gun confiscation alleging you are dangerous and/or unfit to own firearms. These "facts" can be considered and, without a hearing or even personal notification of the complaint, an officer could be sent to your door to collect your guns.

Beyond the confusion and potential danger of this surprise interaction with police, the burden is now on you to hire an attorney, defend against the allegations made, and petition the court to have your rights restored. This is the antithesis of due process and is wholly un-American. The bill is dangerous, extreme, and not needed.

 Subject: Take action to prevent gun violence

Dear Senator Craig,

As a business owner, as a firearms owner and as a hunter, I ask you to support both legislative proposals that will close the background check loopholes, and that will extend existing law that will give law enforcement and family members an ERPO option.

As you may be aware, the mother of the El Paso shooter called the police before the incident and said her son should not have that weapon. After reviewing firearm ownership requirements, they responded there was nothing they could do. Texas is now considering passing ERPO legislation as well.

I have reviewed both bills and see no 2nd amendment issue as they are extensions of current law.

From Brookfield, to Oak Creek, to Middleton, from crime in the streets, to those choosing to take their lives in rural Wisconsin, these are moderate, proven solutions that will save lives. As such, I ask for your support and ask you to urge leadership to #AllowTheVote and #SaveWILives.

Sincerely,

Darryl D. Morin

Subject: Support Background Checks and an Extreme Risk Protection Order Bill During Special Session (message from WI resident Ms. Mary Yank)

Dear Senator David Craig,
Governor Evers has called for a special session to focus on gun safety measures on November 7th. As your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence. Assembly Bill 431 would require background checks on all gun sales. The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.
An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.
This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.

Sincerely,

Ms. Mary Yank
Franklin, WI 53132

Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in

11/13/2019

Dear Senator Craig,

I applaud Governor Evers' call for a special session to address gun violence.

As your constituent, I want to let you know that I proudly stand with Governor Evers as he calls on you to support two essential, evidence-based policies, proven to reduce firearm fatalities: requiring background checks on all gun sales and giving families the ability to petition the court for an extreme risk protective order (ERPO), which will allow for the temporary removal of firearms when loved ones are in imminent danger of hurting themselves or others.

You have an opportunity and responsibility to join with the 80% of Wisconsinites, including gun owners, who support these policies. I strongly urge you to vote in favor of background checks on all gun sales and ERPO during the special session.

Description: Re: Please Oppose Gov. Evers' Gun Control Schemes

Dear Senator Craig,
As your constituent, I urge you to oppose any gun control schemes that Gov. Evers and Attorney General Kaul support, especially any legislation that would allow the seizure of firearms without due process. Thank you.
Sincerely,
Cindy L Koss

Summary: Response

Description: Cindy,
Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.
Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.
Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.
Best Wishes,

David Craig

Subject: Guns

Please support Governor Ever' s gun control efforts. We need to make sure guns stop getting in the wrong hands. It's outrageous that our children have to worry about their safety in schools. Any gun that can kill 100s of people in seconds shouldn't be available to anyone unless you are in a war zone.

Thanks
Irene Harrigan

6 November 2019

Senator David Craig

Representative Mike Kuglitsch

Dear Senator Craig and Representative Kuglitsch,

As you know, Governor Evers has requested a special legislative session for consideration of several bills he alleges will prevent gun crimes. I wanted to provide my viewpoint in advance of this session, should it occur.

Universal Background Checks

For several years now Democrats have been advocating nationally for the passage of so-called "universal background checks," often without precise definitions and without any evidence of efficacy, as somehow being the solution to each and every crime involving a firearm. They have even been successful in passing this type of law in several states. Now Governor Evers wants to bring this questionable law to Wisconsin.

When I look at those states that have previously implemented universal background checks, such as California, I don't see any evidence there has been an impact on gun crime. When I look at the highprofile mass shootings that have occurred in the US the last several years, I see that nearly every perpetrator acquired their weapons legally, from a licensed firearms dealer, after passing existing background checks. When I look at the gun-related crimes in the inner core of cities such as Milwaukee and Chicago, I see felons (often repeat felons roaming the streets after receiving a "slap on the wrist" from prosecutors for prior crimes) using prohibited weapons in the commission of their crimes, weapons that were either stolen or purchased from the "black market." (IE, a background check of any type would be irrelevant).

Universal background checks would have to be "voluntary," given there is no mechanism in place to police individuals buying from, and selling to, other individuals. What sane criminal is going to "volunteer" to have his behavior documented?

Page | 2

It seems to me that universal background checks would affect only law-abiding gun owners, imposing heavy bureaucracy, costs, and potential criminal liability on individuals selling or trading their legallyowned personal property.

The fact that Democrats want to prioritize a law that will impact only law-abiding citizens and would have negligible impact on those using guns in the commission of crimes reveals their true intent, which is to use this law as an exercise in "virtue signaling;" to show their supporters that they are "doing something" about guns and portray their opponents as "evil." If Democrats truly wanted to address criminal use of guns, they would instead: a) press to fix some of the shortcomings in the existing background check system, b) require prosecutors and judges to increase penalties to keep violent felons and repeat offenders in prison and off the streets, and c) focus on, and increase penalties for, gun crimes. They are not, so I can't take their proposals seriously.

Given that universal background checks would only impact those not predisposed to using guns to commit crimes, and will have virtually no impact on those engaged in crime, I am opposed to adopting universal background checks in Wisconsin, and I urge you to vote against any such related legislation should it materialize in the Wisconsin legislature.

Red Flag Law

11/13/2019

Contact Report

So-called "red flag" laws seem to be another popular cause with the anti-gun Democrat party. Again, a number of states have previously adopted these types of laws. Often after passing these laws, I've noticed that many states have subsequently revised the laws to make them easier to employ by removing what little protections exist for citizens accused of being "dangerous." I have been keenly reviewing news stories about these laws over the last year, and I am appalled at how these laws are being abused across the country to deprive citizens of their constitutional rights, and property, without appropriate due process. Citizens are being deprived of their property after simply being accused, without appropriate investigation, without representation, often without being formally charged, let alone convicted, of an actual statutory crime, and often without facing an accuser. Sometimes, they are deprived of property due to improper "thoughts" or improper "speech." They are assumed guilty until they can prove themselves innocent, usually requiring retention of legal representation at great expense over a long period of time. There is usually no jury trial, and accusers are not required to prove their case beyond a "reasonable doubt;" simple statements of accusation are enough to "convict." These red flag laws are really a travesty in a country where a constitution and a proper due process is supposed to protect innocent people from being wrongly accused and "convicted." I hope you find the proposed red flag law as abhorrent as I do, and will vote to prevent adoption in Wisconsin.

Description: Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in

11/13/2019

Contact Report

the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Eileen Madden

Summary: Response

Description: Eileen,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe.

Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.
Best Wishes,

David Craig

Description: Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights
Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,
SD Alton

Description: Subject: Please vote in the special session for life-saving laws to prevent gun violence

Dear Senator Craig,

As a pastor I have buried 10 people due to gun violence. I supported the Sikh community after the slaughter of innocents in their temple. I worked as a police chaplain in three communities and worked with the aftermath of local gun violence especially in domestic situations.

As a person of faith and your constituent, I ask you to please support two evidence-based policies that will reduce firearm deaths.

Requiring background checks on all gun sales will close a major gun safety loophole and help keep firearms out of the hands of dangerous persons.

Extreme risk protective orders (ERPOs) will enable families to petition the court to temporarily remove firearms when loved ones are in imminent danger of harming themselves or others.

These sensible measures are supported by 80% of Wisconsin residents, including gun owners.

Such laws have been passed in other states and have been shown to reduce firearm fatalities.

Courts have upheld universal background checks and extreme risk protective orders as constitutional.

I respectfully urge you to support background checks on all gun sales and ERPO in the November 7 Special Session.

Thank you for your attention to my concerns.

Sincerely,

Paul Armstrong

The people of your district have placed their trust in you to defend their rights and the rights of all the people of Wisconsin. Do not give in and turn your back on us now.

There is no crisis of gun violence. The data continue to prove that all gun control is an effort to grab an emotional handle on voters to drive other political agendas, expand the government's monopoly on violence, and further disenfranchise the people.

The proposed controls do not reduce the gun violence that does exist.

The proposed controls have been abused by people to attack political rivals and disarm victims.

The People are growing tired of the tiresome behavior of government.

The first and most important function of government in this country is to defend liberty. You are urged to do so - unequivocally.

Sincerely,

Christopher LaVesser

Description: Subject: Support Background Checks and an Extreme Risk Protection Order Bill During Special Session (message from WI resident Mrs Rachel Meyer)

Dear Senator David Craig,
Governor Evers has called for a special session to focus on gun safety measures on November 7th. As your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence.

Assembly Bill 431 would require background checks on all gun sales. The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.

An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.

This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.

Sincerely,
Mrs Rachel Meyer
Muskego, WI 53150

Description: Sandra,

Thank you for contacting my office to express your opposition to the Governor calling a Special Session to adopt "Red Flag Gun Seizure" proposals or other new gun control legislation. I appreciate hearing from you on this important matter.

Please know that as a public policy maker, I often face the challenge of balancing what is in the best interest of stopping those who would harm the innocent with the rights afforded by the U.S. Constitution. Rest assured that, as the author of the "Right to Carry" Legislation from last session, I have defended, and will continue to

Contact Report

defend, our Second Amendment Rights and advocate strongly to restore much of the erosion of those rights that has occurred through over-regulation. Additionally, I have authored several bills defending our due process rights. Two pieces of legislation from last session, including the Civil Asset Forfeiture Reform and provisions of the Homeowners Bill of Rights, directly reclaim rights infringed upon by government. I will continue to advocate for policies which increase freedom for individuals and limit the power and role of government in our lives.

Please know that I will strongly oppose any efforts to institute so-called "Red Flag Laws" which, in every version I have seen, violate due process protections in law. I will continue to carefully consider all matters relating to the Second, Fourth, Fifth, and Fourteenth Amendments very judiciously to ensure that no one is deprived of their life, liberty, or property without due process of law, while ensuring our citizens remain safe. Again, thank you for contacting me. I always appreciate hearing from constituents on matters that may come before the legislature. If you should need additional information or assistance with this or any other matter relating to state government, please feel free to contact me at (800) 334-1442 or email me at Sen.Craig@legis.wi.gov.

Best Wishes,

David Craig

Description: Subject: Support the Red Flag Laws

Dear Senator Craig,

In tomorrow's special session, as your constituent, I urge you to support legislation that will protect Wisconsin communities from future gun violence. To do anything else is shirking your responsibility to the votes of Wisconsin.

The homicide rate in Wisconsin has increased by 96 percent over the last decade. We need meaningful legislation that will help reduce gun deaths, which should include background checks on all gun sales, so that people with criminal histories and minors can't evade gun laws and illegally buy guns.

An Extreme Risk Protection Order law would help prevent mass shootings and firearm suicides before they happen. In Wisconsin, 71 percent of all gun deaths are suicides. This bill would empower family members and law enforcement officers to request a court order to temporarily prohibit an individual's access to guns if they pose a serious threat to themselves or others.

This special session is an opportunity for Wisconsin legislators to show bipartisan leadership and take meaningful action on gun violence prevention. I hope you will support the efforts to pass background checks on all gun sales and an Extreme Risk Protection Order bill.

Sincerely,

Joan Pike

Description: Subject: No Gun Control During Special Session, PERIOD!

Dear Senator Craig,

As your constituent, I am writing to insist that you viciously oppose any Special Session on gun control in the Wisconsin General Assembly!

Particularly, I want you to oppose ALL 'Red Flag Gun Control' (or any similarly named) legislation that would allow a gun owner to have his firearms seized having never been arrested, indicted, or convicted of anything!

This legislation destroys any notion of due process and is the end of the cherished American concept of 'innocent until proven guilty!'

Also, you must oppose any attempt by Governor Evers or anyone else to institute a statewide gun registry, often referred to as 'universal background checks.'

This legislation has stopped virtually NONE of the mass shootings that we've seen in the last decade - and has proven to be a complete failure at stopping violent crime.

Its true purpose is the creation of the largest database of gun owners in American history, and everyone knows

11/13/2019

Contact Report

it!

Please understand that there is no amendment, no minor tweak, no improvement that could be made to these bills to make it acceptable to me as a law abiding gun owner.

So whether the bill is supported by Republicans or Democrats, I demand you oppose these bills at all points in the legislative process, during a possible Special Session and in the media.

The Wisconsin Firearms Coalition assures me that they will keep me informed about your actions, both now and aggressively in the 2020 elections.

Sincerely,

Tony Sciarba

Description: Re: Say "no" to Governor Evers' call for a "Red Flag" law

Dear Senator Craig,

The entire premise of Gov. Evers' special session is unacceptable. He was not satisfied with one "no" from the people of Wisconsin, so he is trying to pass his gun control measures again.

I urge you to stand firm in defense of the rights of Wisconsinites to keep and bear arms. Please tell the Governor that we will not accept any gun control in our state. Vote down any measures put forth by Gov. Evers or his administration that will further restrict the rights of the people of Wisconsin and say "no" to his proposed "Red Flag" law, which is just political doublespeak for a Gun Confiscation Order.

The people of your district have placed their trust in you to defend their rights and the rights of all the people of Wisconsin. Do not give in and turn your back on us now.

Sincerely,

Thomas Sisson

Description: Re: Please Oppose Gov. Evers' Efforts to Violate Due Process & Second Amendment Rights

Dear Senator Craig,

As your constituent, I join others in urging you to protect the Second Amendment against Gov. Evers' continued efforts to violate fundamental due process rights and criminalize private firearm transfers. Gov. Evers' so-called "Extreme Risk Protection Orders" strip law-abiding constituents of their Second Amendment rights before giving those constituents a fair opportunity to defend themselves against the allegations of another. Would you want that for your loved ones?

The Right to Keep and Bear Arms is not a second-class right, and it requires the same constitutional requirements of due process that protect my family's other freedoms—like the First Amendment freedom I'm exercising with you now. Rest assured: My family, friends and I will also be exercising our voting rights in response to the Governor's gun control effort.

Criminalizing private transfers only hinders the Second Amendment rights of your law-abiding constituents—people like me. There is no legitimate "public safety" benefit from these laws, since criminals are already prohibited from possessing what's at issue; imposing another law upon me won't deter a single criminal. The additional law only endangers me and my family.

When seeking my vote, you asked me to trust you as a stalwart defender of my rights. I'm trusting you now. Don't sacrifice my long-term freedom for a short-term political gain.

Sincerely,

James Mullin

Summary: Response to Newsletter

Description: Senator Craig,

I am writing in response to your contention that ERPO legislation is "too extreme for Wisconsin," and that existing Chapter 51 legislation is adequate to address the issue of gun deaths. As a licensed mental health professional for over 20 years, I can tell you that I strongly disagree with you on both of these points.

Wisconsin has one of the weakest emergency detention laws in the nation. Wisconsin is one of only 4 states in the nation that does not allow mental health professionals or family members to be involved in the decision about whether an individual is in need of involuntary commitment. Wisconsin relies solely on law enforcement or crisis resources to make these decisions. This means that professionals and/or family members who best know the history, triggers, and symptom presentations of mentally ill individuals are completely removed from the decision-making at times of crisis. I have seen many situations in which patients were deemed to be in danger by highly trained professionals and/or family members who were then overruled in their recommendation for involuntary detention. In addition, when an emergency detention is initiated by law enforcement, a physician is required to assess the detained patient within 24 hours of hospital admission. This is the shortest time frame in the nation. So, if a patient attempted suicide and remained unconscious for 24 hours, making assessment impossible, the emergency detention is no longer valid. In Milwaukee County alone, hundreds of emergency detentions are dropped each year due to an inability to assess the patient within 24 hours or due to other paperwork errors (Milwaukee Journal Sentinel, 2013).

Emergency detention is a much greater intrusion in individual rights than extreme risk protection orders. When a person is placed on an emergency detention, s/he not only loses access to guns, but also to other freedoms. If there were less intrusive options for keeping mentally ill patients safe by temporarily removing firearms from their homes, many individuals could remain in their homes, retaining their freedom to travel and participate in other life activities.

Emergency detention is the least effective way to deliver mental health treatment. When a mentally ill individual is in crisis, s/he is most in need of support from family, friends, and their community. Removing these individuals from their familiar environments and locking them in a facility with other mentally ill patients often increases their paranoia, anxiety, and depression. Efforts to engage an involuntary patient in treatment are often undermined by the adversarial process of obtaining the Chapter 51 order in the first place. Empowering families and the mental health community with less invasive tools, such as extreme risk protection orders, would allow for more collaborative and effective approaches to treatment. Often, families and other supports are so afraid of their loved ones when they have access to firearms that Chapter 51 seems to be the only option available. But this process often leads to rifts in these relationships, further isolating the mentally ill individual and undermining their long term recovery.

I strongly urge you to reconsider your stance on ERPO and universal background check legislation. We have seen gun deaths decrease in states that have adopted these measures, which are supported by 80% of Wisconsinites.

Sincerely,

Debra Minsky-Kelly, MSW, LCSW

- Gov. Evers Considers Gun Confiscation
- Interview w/ Vicki McKenna

District News

I had the opportunity to tour Paul Frost Farms in Waterford to learn more about the issues important to the dairy industry, especially in Southeast Wisconsin. The Republican Legislature has done much to improve the tax and regulatory environment for farmers in our state - preserving our state's standing as America's Dairyland.

Gov. Evers calls Special Session for more gun restrictions

This week, Governor Evers called on the legislature to convene for a Special Session to pass more gun laws. The problem is, Wisconsin already has volumes of laws relating to illegal gun ownership and use. These laws are consistently ignored in certain portions of the state by elements of the criminal justice system.

Before we pass more laws restricting the rights of law-abiding gun owners, we should focus state resources on prosecuting the criminal, repeat offenders who violate our current gun laws and endanger our communities. The judges and DAs who do not take these laws seriously must be held accountable.

Governor Evers has already said he would consider gun confiscation from those who have committed no crime, yet felons in possession of firearms many times walk out of courthouses in Wisconsin with less than a slap on the wrist. It is ridiculous to suggest that we restrict the freedoms of law-abiding citizens when current laws involving violent, convicted felons possession of firearms are not being enforced by judges and DAs.

Gov. Evers Considering Gun Confiscation

(picture from Fox6now.com)

Late last month, Governor Evers held a press conference with fellow Democrats to roll out so-called "red-flag" legislation which would allow judges to take away an individual's Constitutional rights without proper due process. However, in a surprising moment of honesty during the press conference, Governor Evers let slip that he would also consider a "mandatory gun buyback" which is another way to say government confiscation of firearms. This statement is a complete flip-flop from his previous statements in August to Steve Scaffidi on WTMJ saying gun control "is not about taking guns away".

Listen here to my interview with Vicki McKenna about Governor Evers' consideration of an unconstitutional gun grab.

Senate Majority Leader Scott Fitzgerald and Assembly Speaker Robin Vos released a statement sharing their opposition to the very idea of firearms confiscation. Rest assured, I will continue to vigilantly guard against the infringement, and flat-out denial, of your Constitutional rights.

New "Red-flag" Laws Not Needed in Wisconsin

Wisconsin already has extensive tools for law enforcement and the courts to properly intervene and adjudicate an individual who presents a harm to themselves or others. Most importantly, the current court-tested processes uphold an individual's right to due process and gives a clear path for law enforcement, the courts, and medical professionals to follow.

Contact Report

Chapter 51 in the Wisconsin state statutes provides for emergency detentions for potentially dangerous individuals. After receiving reports of emergency detention from the responding law enforcement agency and recommendations of the psychiatrist at the mental health detention facility, the court can proceed with a hearing and decide whether or not the individual needs further intervention. If it is determined that the individual is a danger, the court can prohibit that individual from possessing a firearm and order the surrender of their firearms. This allows for the opportunity to appear before a judge at a hearing prior to the surrendering of one's rights.

The "red-flag" legislation being proposed by the Wisconsin Democrats is extreme. In fact, many of the "red-flag" bills proposed or passed in other states trample on the Constitutional right to due process. The legislation proposed by Wisconsin Democrats is no different.

Under their bill, a mere acquaintance could file a petition for gun confiscation alleging you are dangerous and/or unfit to own firearms. These "facts" can be considered and, without a hearing or even personal notification of the complaint, an officer could be sent to your door to collect your guns.

Beyond the confusion and potential danger of this surprise interaction with police, the burden is now on you to hire an attorney, defend against the allegations made, and petition the court to have your rights restored. This is the antithesis of due process and is wholly un-American. The bill is dangerous, extreme, and not needed.
